B6753T

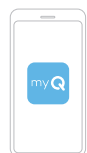

WITH BATTERY BACKUP

B4643T

For the Smartest Garage

The Chamberlain Secure View™ Smart Garage Opener line offers a sleek design featuring a built in HD wide-angle camera, 2-way audio communication and brilliant LED lighting. The B6753T also features Battery Backup so you can open and close your garage door even when the power is out. The free myQ app also allows homeowners to manage and control their garage door directly from their smartphone—at anytime and from anywhere.

Download the FREE myQ® App

Get peace of mind by seeing and knowing what is most important to you is securely in the garage.

Know

What's happening.

Never wonder if the garage door was left open. Check the status of your garage door, plus open and close the garage door from your phone — no matter where you are.

See

In beautiful 1080p.

Stop imagining and see what's going on in your garage. Real-time video monitoring lets you see what's happening whether you're at the office or on vacation halfway across the world.

Hear

2-way audio communication.

Tell your neighbor where to find the ladder or help your daughter find her bike helmet with 2-way communication.

Secure

From anywhere.

Ensure your family and prized possessions are safe and secure with a reliable garage door opener that's simple to use, built to last and intuitive.
