LG Smart Cooling

KEY FEATURES

Slim SpacePlus® Ice System

Ice makers are great, but not if it means you can't fit all of your food in the fridge. The Slim SpacePlus® Ice System provides maximum shelf space* and allows even more space for door bins.

Smart Cooling System

Smart Cooling system is designed to maintain superior conditions within the refrigerator. The Linear Compressor reacts quickly to temperature fluctuations and helps keep your food fresher, longer. Meanwhile, strategically-placed vents in every section help to surround your food with cool air no matter where you put it.

Dual Ice Makers

With Slim SpacePlus ice maker in the door and another ice maker in the freezer, LG gives you enough ice to fill the cooler and serve the whole party.

*Standard width french door refrigerator, excludes other LG manufactured products.
