Safety Labels
Understanding The Machine Safety Labels
The machine safety labels shown in this section are placed in important areas on your machine to draw attention to potential safety hazards.

On your machine safety labels, the words DANGER, WARNING, and CAUTION are used with this safety-alert symbol. DANGER identifies the most serious hazards. The operator's manual also explains any potential safety hazards whenever necessary in special safety messages that are identified with the word, CAUTION, and the safety-alert symbol.

CAUTION

- Reduce loaded cart weight on slopes and/or slippery surfaces.
- Do not exceed 8 mph (13 kph) when towing cart.

Safety

Read the general safety operating precautions in your machine operator's manual for additional safety information.

Operate Safely
- This attachment is intended for use in lawn care and home applications. Do not tow behind a vehicle on a highway or in any high speed application.
- Do not tow at speeds higher than maximum recommended towing speed.
- Towing speed should always be slow enough to maintain control. Travel slowly over rough ground.
- Do not let children or an untrained person operate machine.
- Do not let anyone, especially children, ride on machine or attachment. Riders are subject to injury such as being struck by foreign objects and being thrown off. Riders may also obstruct the operator's view, resulting in the machine being operated in an unsafe manner.
- Check machine brake action before you operate. Adjust or service brakes as necessary.
- Keep all parts in good condition and properly installed. Fix damage immediately. Replace worn or broken parts. Replace all worn or damaged safety and instruction decals.
- Do not modify machine or safety devices. Unauthorized modifications to the machine or attachment may impair its function and safety.
- Securely anchor all loads to prevent loads from falling.

Towing Loads Safely
- Stopping distance increases with speed and weight of towed load. Travel slowly and allow extra time and distance to stop.
- Total towed weight must not exceed limits specified in towing vehicle operator's manual.
- Excessive towed load can cause loss of traction and loss of control on slopes. Reduce towed weight when operating on slopes.
- Never allow children or others in or on towed equipment.
- Use only approved hitches. Tow only with a machine that has a hitch designed for towing. Do not attach towed equipment except at the approved hitch point.
- Follow the manufacturer's recommendations for weight limits for towed equipment and towing on slopes. Use counterweights or wheel weights as described in the machine operator's manual.
- Do not turn sharply. Use additional caution when turning or operating under adverse surface conditions. Use care when reversing.
- Do not shift to neutral and coast downhill.

Protect Bystanders
- Keep bystanders away when you operate a towed attachment.
- Before you back machine and attachment, look carefully behind attachment for bystanders.
Keep Riders Off Towed Attachment
Keep riders off of a towed attachment.
Riders on a towed attachment are subject to injury, such as being struck by objects and being thrown off the attachment during sudden starts, stops and turns.
Riders obstruct the operator's view, resulting in the attachment being used in an unsafe manner.
Keep riders off of hitch bracket.

Keep Feet From Under Drawbar
Before you disconnect an attachment from machine hitch plate:

- Unload attachment.
- Stop attachment on level ground.
- Stop machine engine.
- Lock machine park brake.
- Block attachment wheels.
- Make sure feet are not under drawbar.

Tools Required

Tools required for assembly:
• 1/2 in. wrench (2)
• 9/16 in. wrench (2)
• Pliers
• Flat blade screwdriver
Assemble Cart

When assembling cart, do the following:

- Do not discard cardboard bed divider, it can be used as a template for making dividers for the cart.
- Place pieces of carton under cart box to help avoid scratching finish.
- Put all bolt heads to the inside of the cart box.

Install Axle Support

1. Place axle support (A) on bottom of cart.
2. Install eight 5/16 x 1 in. slotted head screws (B) and eight 5/16 in. flat washers (C), from inside cart box through axle support. Place eight 5/16 in. lockwashers (D) and eight 5/16 in. nuts (E) on screws.
3. Tighten nuts.

Install Lock Bracket

NOTE: Make sure notch on lock bracket is facing to the front of the cart.

1. Place lock bracket (A) on cart.
2. Install two 5/16 x 1 in. slotted head screws (B) and two 5/16 in. flat washers (C) through cart box (from inside cart box) and lock bracket.
3. Secure with two 5/16 in. lockwashers (D) and two 5/16 in. nuts (E).
4. Tighten nuts.

Assemble Cart Lock Bar

Picture Note: Bottom of drawbar shown

1. Place cart lock bar (A) through slot in drawbar (B) with notch (C) in lock bar to rear of cart.

NOTE: Locknuts with attached star washers should be installed on each side of the cart lock bar so it is centered.

Pull up on lock bar while installing bolt. This will help to align the bolt with the hole on the other side of the drawbar.

2. Install one 3/8 x 3-3/4 in. bolt (D) and two 3/8 in. nuts with attached star washers (E) through drawbar and lock bar.
3. Tighten nuts securely.
4. Secure bolt with 3/8 in. locknut (F) so lock bar moves forward and backward freely.
5. Hook one end of spring (G) in hole (H) in lock bar (A); stretch spring to hook other end in cart drawbar hole (I).
Install Clevis

1. Place clevis pin (A) on cart drawbar. Secure with 1/8 in. spring locking pin (B).
2. Install two 5/16 x 1 in. slotted head screws (C) through clevis and cart drawbar.
3. Fasten with two 5/16 in. lockwashers (D) and two 5/16 in. nuts (E).
4. Tighten nuts.

Install Cart Drawbar and Wheels

1. Place drawbar (A) on axle support (B) and lock bracket (C).
2. Slide axle (D) through axle support and drawbar.
3. Slide one 3/4 in. bushing (E) on both axle ends.
4. Put a small amount of grease on each end of axle, before installing wheels. This will make installing wheels on axle easier.
5. Put one wheel (F) (valve stem to the outside) on axle.
6. Put second 3/4 in. bushing (E) and one retaining ring (G) on axle.
7. Inflate tires to correct tire pressure.
8. Grease wheel bearings with John Deere multipurpose grease or an equivalent.

Installing

Installing Cart

CAUTION: Avoid injury! Before installing cart, make sure dump lever is locked in place.

1. Lock cart lock bar (A) in place.
2. Park machine safely. (See Parking Safely in the Safety section.)
3. Align cart drawbar with machine drawbar.
4. Install clevis pin (B) through cart drawbar and machine drawbar. Secure clevis pin with 1/8 in. spring locking pin.

Removing

Removing Cart

CAUTION: Avoid injury! Before installing cart, make sure transport latch is facing toward cart dump lever and dump lever is locked in place.

NOTE: Refer to illustrations in the Installing Section, earlier in this manual.

1. Park machine safely. (See Parking Safely in the Safety section.)
2. Unload cart.
OPERATING

3. Remove cotter pin and drawbar pin.
5. Install drawbar pin and cotter pin in cart drawbar for storage.

Operating

Determining Weight for Cart

CAUTION: Avoid injury! Keep feet away from under drawbar.

3. Tilt cart box back to unload cart.
4. Push cart down and move cart lock bar toward cart and lock into place.

Service

Lubricating Wheel Bearings
Lubricate each wheel bearing with John Deere multipurpose grease or an equivalent.

Specifications

Model 10P Cart
Maximum Towing Speed ....................... 13 kph (8 mph)
Box Capacity (Heaped) .......................... 28m³ (10 cu ft)
Maximum Load ........................................ 295kg (650 lb)
Maximum Tongue Weight .......................... 32kg (70 lb)
Empty Weight ......................................... 33kg (72 lb)

Tires
Size ...................................................... 15.00x6-6
Inflation Pressure ................................. 97kPa (14 psi)

Getting Quality Service

John Deere Quality Continues with Quality Service
John Deere provides a process to handle your questions or problems, should they arise, to ensure that product quality continues with quality parts and service support.

Follow the steps below to get answers to any questions you may have about your product.

1. Refer to your attachment and machine operator manuals.

2. In North America or Canada, call John Deere Special Services at 1-866-218-8622 and provide product serial number (if available) and model number.

Unloading Cart

1. Park machine safely. (See Parking Safely in the Safety section.)

CAUTION: Avoid injury! Before dumping cart:
- Park machine safely.
- Before backing up, make sure area is clear of bystanders, especially children.
- Make sure cart is installed to the towing machine.

2. Move cart lock bar forward to release cart box.
