

## **Thuja occidentalis 'Smaragd'**

Emerald Green Arborvitae

Upright & narrow evergreen best known for its bright green coloration throughout the year. Slow growing, it's very cold resistant and is in high demand for that very reason.

**Hardiness Zone**- USDA Hardiness 2-7

### **Sun Exposure/ Watering**

Full sun to light shade. If grown in too much shade, the evergreen foliage will become light and airy. Drought tolerant once established.

**Mature Plant Size** – 12-14'H x 3-5' W

**Bloom Period** – None

### **Growing Tips**

Low maintenance. Possibly shear in Spring if needed.

### **Caring for Arborvitae**

Pretty much care free. Tolerant of a wide range of soils, just not being overwatered.

### **Pests & Problems**

No serious pests or problems

### **Uses**

Specimens, Borders, Hedges, Screens
