Optional: Electric drill with drill bit

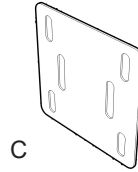

PACKAGE CONTENTS

A
(1) Cup Hinge
plate

B
(1) Face Frame
cabinet plate

C
(1) Frameless
cabinet plate

D
(8) Screws

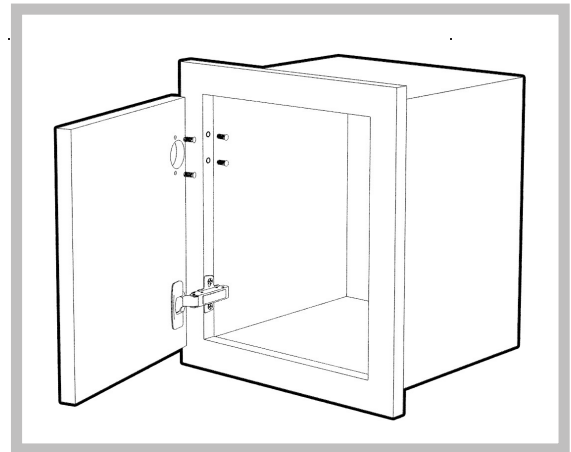

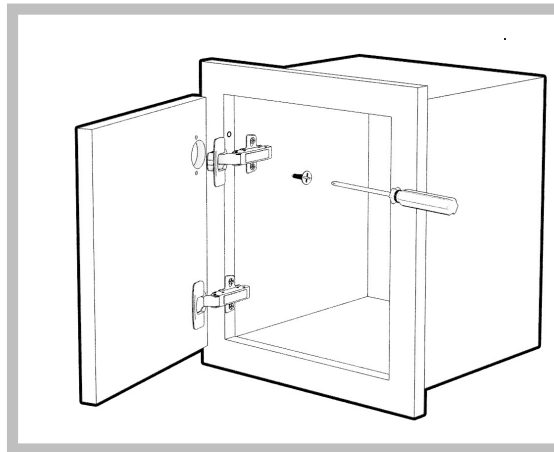

E
(4) Plastic
Dowels

1

TO BEGIN

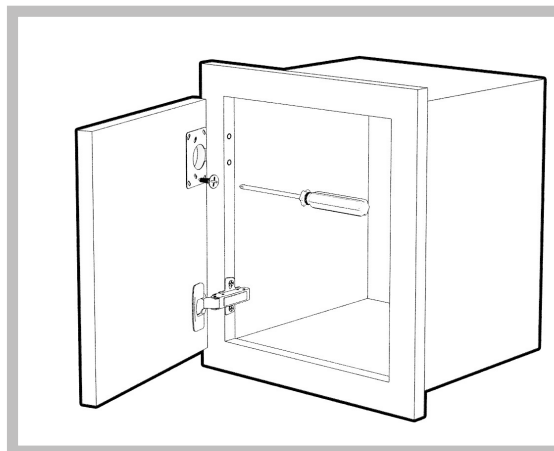

- This kit includes a cabinet plate for both Face Frame (B) and Frameless (C) cabinets. Use the correct cabinet plate for your type of cabinetry.
- Remove hinge parts from damaged cabinet door and cabinet base.
- If any original screw holes are stripped use Plastic Dowels (E) to fill holes.

2

INSTALLING THE CUP HINGE PLATE

- Measure and mark the position for the cabinet plate (A) on your cabinet door.
- Drill pilot holes if necessary for any new screw holes needed.
