

# AIR COMPRESSOR QUICK START UP GUIDE

Model: C303H

SKU: 1001597729

START

1

Ensure the switch is in the OFF (O) position

2

Pull the ring on the safety valve to release air for about 20 seconds (if any). Release the ring to close.

3

Close regulator knob by turning in a counterclockwise direction until the outlet pressure reaches zero

4

Attach air hose to the quick coupler (air hose and accessories NOT included).

5

Close the drain valve by turning in a clockwise direction. Drain tank after every use.

6

Plug in the power cord. Use of an extension cord is not recommended with this product. Please use a longer hose instead.

7

Turn the switch to the ON (I) position. After starting, wait until the compressor shuts off before using.

8

Adjust the pressure regulator by turning in a clockwise direction to the working pressure of the tool.
