PRODUCT AND COMPANY INFORMATION – SECTION 1

Manufacturer/Distributor: GFA Production Xiamen Co., Ltd
No.20 Hu Li Industrial Park, Mei Xi Dao,
Tong An, Xiamen, Fujian China. 361100
Tel: 86.592.7269515
Fax: 86.592.7269528

Product Name: Alcohol Cleansing Pads
Synonyms: Alcohol Prep Pads, Alcohol Wipes
Intended Use: For preventing infection, disinfecting and treating wounds, cleansing instruments or hands

HAZARDOUS IDENTIFICATION – SECTION 2

This is a nonflammable aqueous solution.

EMERGENCY OVERVIEW:
Towelette saturated with a colorless liquid with an alcohol odor. May cause eye and skin irritation.

PRIMARY ROUTES OF EXPOSURE:
Skin contact, Inhalation, Eye contact, Ingestion.

COMPOSITION INFORMATION – SECTION 3

Chemical Name: Isopropyl Alcohol
% by volume: 70%
CAS Number: 67-63-0
Chemical Name: Pure water
% by volume: 30%
CAS Number: 7732-18-5

FIRST AID MEASURES – SECTION 4

SEEK MEDICAL ATTENTION FOR ALL CASES OF OVEREXPOSURE.

FIRST AID MEASURES:

Eye Contact: Flush eyes with plenty of water for at least 15 minutes. Then get immediate medical attention.
Skin Contact: Wash with soap and water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention, if needed.
Inhalation: Move to fresh air and contact a physician if necessary.
Ingestion: Contact local poison control center or immediately. Never make an unconscious person vomit or drink fluids. If person is unconscious, get medical attention immediately
FIRE FIGHTING MEASURES-SECTION 5

Flash Point: Over 78 °F
Method: N/A

Flammability Limits:
Nonflammable aqueous solution

LEL: N/A
UEL: N/A

Firefighting Instructions:
If package is opened, the contents will burn. Handle as flammable liquid

Extinguishing Media:
Alcohol resistant foam, Carbon dioxide for small fires.

Firefighting Equipment:
Wear self-contained breathing apparatus and full protective gear. Treat as combustible.

ACCIDENTAL RELEASE MEASURES-SECTION 6

If package is damages, treat as flammable and remove sources of ignition. Pick up and place in disposal container. If packaging is intact, product may be used before discarding.

HANDLING & STORAGE-SECTION 7

Keep away from heat sources. Keep container closed when not in use. Store in cool, well ventilated area, out of direct sunlight, and away from incompatible materials.

EXPOSURE CONTROLS/ PERSONAL PROTECTION-SECTION 8

Exposure Limits:
8hours

TWA ACGIH TLV:
Isopropanol 400ppm

TWA OSHA PEL:
Isopropanol 400ppm

Engineering Controls:
Local exhaust ventilation acceptable

Protective Clothing or Equipment:
None required

PERSONAL PROTECTIVE EQUIPMENT
None required

Eye / Face Protection:
Eye protection, as necessary to prevent excessive contact.

Skin protection:
None required under normal conditions.

Respiratory protection:
None required under normal conditions.
PHYSICAL & CHEMICAL PROPERTIES—SECTION 9

General information:

Appearance: Moist towelette in foil packet.

Odor: Characteristic odor

Boiling Point: 80℃

Solubility in Water: Miscible

VOC: 61%

Physical State: Solid

STABILITY & REACTIVITY—SECTION 10

Stability: This product is stable under normal conditions.

Conditions to avoid: Extreme heat

Materials to avoid: None

Hazardous Decomposition products: Carbon monoxide, carbon dioxide

ECOLOGICAL INFORMATION—SECTION 12

No ecological or special considerations when used according to directions. This product is not considered environmentally harmful from normal dilution, expected usage and typical drainage to sewers, septic systems and treatment plants.

DISPOSAL INFORMATIONS—SECTION 13

Dispose of in accordance with local, State, and Federal regulations.

Transport information-section 14

N/A

REGULATORY INFORMATION—SECTION 15

N/A
1. Chemical Product and Company Identification

Manufacturer / Distributor: GFA Production Xiamen Co., Ltd
No.20 Hu Li Industrial Park, Mei Xi Dao, Tong An, Xiamen, Fujian China. 361100
Tel: 86.592.7269515
Fax: 86.592.7269528

Product Name: First Aid Antiseptic Towelette

Synonyms: Antiseptic Towelette

Intended Use: For Professional and Hospital use. Helps prevent infection. Antiseptic cleansing of face, hands and body without soap and water

2. Hazards Identification

Emergency overview
Contact with liquid may cause eye and skin irritation.

Potential short term health effects

Routes of exposure
- Eyes: May cause irritation.
- Skin: In case of skin irritation, discontinue use of the product.
- Inhalation: Not a normal route of exposure. May cause respiratory tract irritation.
- Ingestion: Not a normal route of exposure. May cause stomach distress, nausea or vomiting.

Target organs
- Eyes: Skin.

Chronic effects
- Prolonged or repeated exposure can cause drying, defatting and dermatitis.

Signs and symptoms
- Symptoms may include redness, edema, drying, defatting and cracking of the skin.
- Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.

3. Composition / Information on Ingredients

Composition:

<table>
<thead>
<tr>
<th>Name</th>
<th>CAS #</th>

<td>7732-18-5</td>
<td>99.87%</td>
</tr>
</tbody>
</table>
4. First Aid Measures

First aid procedures
- **Eye contact**: Flush with cool water. Remove contact lenses, if applicable, and continue flushing. Obtain medical attention if irritation persists.
- **Skin contact**: In case of skin irritation, discontinue use of product.
- **Inhalation**: Not a normal route of exposure. If symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention.
- **Ingestion**: Not a normal route of exposure. Do not induce vomiting. Never give anything by mouth if victim is unconscious, or is convulsing. Obtain medical attention.

Notes to physician
Symptoms may be delayed.

General advice
If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Keep out of reach of children. Avoid contact with eyes.

5. Fire Fighting Measures

- **Flammable properties**: Not flammable per ICAO Test Method 1.1.2.1
- **Extinguishing media**
  - **Suitable extinguishing media**: Treat for surrounding material.
  - **Unsuitable extinguishing media**: Not available
- **Protection of firefighters**
  - **Specific hazards arising from the chemical**: Not available
  - **Protective equipment for firefighters**: Firefighters should wear full protective clothing including self contained breathing apparatus.
- **Hazardous combustion products**: May include and are not limited to: Oxides of carbon. Hydrogen chloride.
- **Explosion data**
  - **Sensitivity to mechanical impact**: Not available
  - **Sensitivity to static discharge**: Not available

6. Accidental Release Measures

- **Personal precautions**: Keep unnecessary personnel away. Do not touch or walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep people away from and upwind of spill/leak.
- **Methods for containment**: Prevent entry into waterways, sewers, basements or confined areas.
- **Methods for cleaning up**: Pick up and discard towel.

7. Handling and Storage

- **Handling**: Use good industrial hygiene practices in handling this material.
- **Storage**: Keep out of reach of children. Store in a closed container away from incompatible materials.
8. Exposure Controls / Personal Protection

Engineering controls
- General ventilation normally adequate.

Personal protective equipment
- **Eye / face protection**: Follow standard industrial hygiene practices.
- **Hand protection**: Not required.
- **Skin and body protection**: As required by employer code.
- **Respiratory protection**: Where exposure guideline levels may be exceeded, use an approved NIOSH respirator.

**General hygiene considerations**: Handle in accordance with good industrial hygiene and safety practice. When using do not eat or drink.

9. Physical & Chemical Properties

- **Appearance**: Liquid saturated on wipe
- **Color**: Clear liquid
- **Form**: Liquid saturated on wipe
- **Odor**: Characteristic
- **Odor threshold**: Not available
- **Physical state**: Solid
- **pH**: Not available
- **Melting point**: Not available
- **Freezing point**: Not available
- **Boiling point**: 101.11 °C (214 °F)
- **Flash point**: Not available
- **Evaporation rate**: Not available
- **Flammability limits in air, lower, % by volume**: Not available
- **Flammability limits in air, upper, % by volume**: Not applicable
- **Vapor pressure**: Not available
- **Vapor density**: Not available
- **Specific gravity**: Not available
- **Octanol/water coefficient**: Not available
- **Solubility (H2O)**: Not available
- **Auto-ignition temperature**: Not available
- **VOC (Weight %)**: Not available
- **Viscosity**: Not available
- **Percent volatile**: Not available
10. Chemical Stability & Reactivity Information

- **Chemical stability**: Stable under recommended storage conditions.
- **Conditions to avoid**: Do not mix with other chemicals.
- **Hazardous decomposition products**: May include and are not limited to: Oxides of carbon. Hydrogen chloride.
- **Possibility of hazardous reactions**: Hazardous polymerization does not occur.

11. Toxicological Information

**Effects of acute exposure**
- **Eye**: May cause irritation.
- **Skin**: In case of skin irritation, discontinue use of the product.
- **Inhalation**: Not a normal route of exposure. May cause respiratory tract irritation.
- **Ingestion**: Not a normal route of exposure. May cause stomach distress, nausea or vomiting.
- **Sensitization**: Non-hazardous by WHMIS/OSHA criteria.
- **Chronic effects**: Non-hazardous by WHMIS/OSHA criteria.
- **Carcinogenicity**: Non-hazardous by WHMIS/OSHA criteria.
- **Mutagenicity**: Non-hazardous by WHMIS/OSHA criteria.
- **Reproductive effects**: Non-hazardous by WHMIS/OSHA criteria.
- **Teratogenicity**: Non-hazardous by WHMIS/OSHA criteria.

12. Ecological Information

- **Ecotoxicity**: Not available
- **Environmental effects**: Not available
- **Aquatic toxicity**: Not available
- **Persistence / degradability**: Not available
- **Bioaccumulation / accumulation**: Not available
- **Partition coefficient**: Not available
- **Mobility in environmental media**: Not available
- **Chemical fate information**: Not available
- **Other adverse effects**: Not available
13. Disposal Information

Dispose of in accordance with Local, State, and Federal regulations.

2. Hazard(s) identification

(a) Classification of the chemical
This product is not classified as hazardous.

(b) Label elements
This product is not classified as hazardous.

Pictogram(s): No pictogram is used.
Signal word: No signal word is used.
Hazard statements: No hazard statements.
Precautionary statements: No precautionary statements.

(c) Description of any hazards not otherwise classified
No information available.

(d) Ingredient with unknown acute toxicity
No information available.
3. Composition/information on ingredients

4. First-aid measures

(a) Description of first aid measures

Inhalation: Move to fresh air in case of accidental inhalation of vapours or decomposition products. If you feel unwell, seek medical advice.

Skin contact: Wash off with soap and plenty of water. If skin irritation persists, call a physician.

Eye contact: Rinse with plenty of water immediately, also under the eyelids, for at least 15 minutes. If eye irritation persists, consult a specialist.

Ingestion: Rinse mouth. Do not induce vomiting. Call a physician immediately.

(b) Most important symptoms/effects, acute and delayed

No information available.

(c) Immediate medical attention and special treatment

Treat symptomatically. Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient.

5. Fire-fighting measures

(a) Extinguishing media

Suitable extinguishing media: Use carbon dioxide, dry extinguishing media, water spray, water.

Unsuitable extinguishing media: No information available.

(b) Special hazards arising from the chemical

Combustion produces toxic or irritating gases and fumes.

(c) Special protective equipment and precautions for fire-fighters

Firefighters must wear fire resistant protective equipment. Wear self-contained breathing apparatus.
6. Accidental release measures

(a) Personal precautions, protective equipment and emergency procedures
Handle in accordance with good industrial hygiene and safety practice.

(b) Methods and materials for containment and cleaning up
For large amounts: Transfer product into suitable containers.
For residues: Pick up with suitable absorbent material (e.g. sand, sawdust, general-purpose binder, kieselguhr). Dispose of absorbed material in accordance with regulations.

7. Handling and storage

(a) Precautions for safe handling
Ensure thorough ventilation of stores and work areas.

(b) Conditions for safe storage, including any incompatibilities
Further information on storage conditions: Containers should be stored tightly sealed in a dry place.

8. Exposure controls/personal protection

(a) Control parameters

(b) Appropriate engineering controls
Provide local exhaust ventilation system. Ensure compliance with applicable exposure limits.

(c) Personal protective equipment
Respiratory protection: The following respirators and maximum use concentrations are drawn from NIOSH and/or OSHA.
50 mg/m3
Any air-purifying full-facepiece respirator equipped with an N95, R95, or P95 filter. The following filters may also be used: N99, R99, P99, N100, R100 or P100.
125 mg/m3
Any supplied-air respirator operated in a continuous-flow mode.
Any powered, air-purifying respirator with a high-efficiency particulate filter.
250 mg/m³
Any air-purifying, full-facepiece respirator equipped with an N100, R100, or P100 filter.
Any self-contained breathing apparatus with a full facepiece.
Any supplied-air respirator with a full facepiece.
2000 mg/m³
Any supplied-air respirator with a full facepiece that is operated in a pressure-demand or other positive-pressure mode.
Emergency or planned entry into unknown concentrations or IDLH conditions
Any self-contained breathing apparatus that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode.
Any supplied-air respirator with a full facepiece that is operated in a pressure-demand or other positive-pressure mode in combination with an auxiliary self-contained breathing apparatus operated in pressure-demand or other positive-pressure mode.
Escape
Any air-purifying, full-facepiece respirator equipped with an N100, R100, or P100 filter.
Any appropriate escape-type, self-contained breathing apparatus.

Hand protection: Wear appropriate chemical resistant gloves.
Eye/face protection: Wear splash resistant safety goggles. Provide an emergency eye wash fountain and quick drench shower in the immediate work area.
Skin/body protection: Wear appropriate chemical resistant clothing.

Safety Data Sheet
According to HCS-2012 APPENDIX D TO §1910.1200

Fluorescent material

(g) Flash point  >200°F (93.3°C) Closed Cup
(h) Evaporation rate  Not available.
(i) Flammability  No
(j) Upper/lower flammability or explosive limits  Not available.
(k) Vapor pressure  Not available.
(l) Vapor density  Not available.
(m) Relative density  Not available.
(n) Solubility(ies)  Not available.
(o) Partition coefficient: n-octanol/water  Not available.
(p) Auto-ignition temperature  Not available.
(q) Decomposition temperature  Not available.
(r) Viscosity  Not available.

10. Stability and reactivity

(a) Reactivity
Stable under recommended storage and handling conditions (see section 7, handling and storage).

(b) Chemical stability
Stable under normal conditions.

(c) Possibility of hazardous reactions
Will not polymerize.

(d) Conditions to avoid
Avoid heat, flames, sparks and other sources of ignition. Avoid contact with incompatible materials.

(e) Incompatible materials
Acids, bases, oxidizing materials.

(f) Hazardous decomposition products
Carbon monoxide (CO), carbon dioxide (CO₂) and other toxic vapors.

11. Toxicological information

(a) Information on the likely routes of exposure
Inhalation:  Not available.
Ingestion:  Not available.
Skin contact:  Not available.
Eye contact:  Redness.
(b) Information on toxicological characteristics

**Acute toxicity:**
- 131-11-3 Oral LD50 Rat 6800 mg/kg (Source: IUCLID)

Engineer: "Echo He" Technical Report checked: "Kevin Zhang"
Aspirin 325mg (NSAID).............Pain reliever/fever reducer

Active ingredient (in each tablet)

Uses
- Temporarily relieves minor aches and pains associated with:
  - common cold
  - muscle aches
  - backache
  - headache
  - toothache
  - minor arthritis pain

Warnings
- Aspirin may cause a severe allergic reaction
  - which may include:
    - rash
    - hives
    - swelling of face, lips, tongue, or throat
    - asthma (wheezing)
    - skin reddening
    - blisters
    - fever
    - chills
  - If an allergic reaction occurs, stop use and seek medical help right away.

- Stomach bleeding warning:
  - This product contains an NSAID, which may cause severe stomach bleeding.
  - The stomach bleeding warning applies to you if you:
    - have ever had stomach ulcers or bleeding problems
    - have a history of stomach problems such as heartburn
    - have high blood pressure, heart disease, liver disease, or kidney disease
    - have had stomach bleeding
    - have been told you have angiodysplasia (abnormal blood vessels in the wall of the stomach)
    - are age 60 or older
    - have had heart or lung disease
    - have a bleeding disorder
    - are taking a diuretic
    - are taking other drugs containing NSAIDs (aspirin, ibuprofen, naproxen, or others)
    - are taking a blood thinning (anticoagulant) or steroid drug
    - have had stomach ulcers or bleeding problems
    - have had a heart attack or stroke in the past 3 months
    - have certain other medical conditions
  - If you have high blood pressure, heart disease, liver disease, or kidney disease, and take other drugs, ask a doctor before use. It is especially important not to use aspirin during right before or after heart surgery.

- Take this product as directed. Do not use for longer than 10 days, unless directed by a doctor.

- When using this product:
  - Take 1 or 2 tablets with water every 4 hours. Do not take more than 12 tablets in 24 hours, or as directed by a doctor.
  - Avoid excessive heat and humidity. Store at room temperature 15º-30ºC (59º-86ºF).
  - Ask a doctor or pharmacist before use if you are taking any other drug or herbal supplement
    - Keep out of reach of children.

- In case of overdose, get medical help or contact a Poison Control Center right away.
