

Care Instructions

1. Cleaning Your Cooler

After Each Use:

1. Empty the cooler and remove any leftover items.
2. Wash the interior and exterior with mild soap and warm water. Avoid using abrasive cleaners.
3. Rinse thoroughly and dry completely with a soft cloth to prevent mold or odors.

For Stubborn Stains or Odors:

Mix baking soda and water into a paste, apply it to the affected area, and let it sit for a few minutes before rinsing.

2. Usage Tips

1. Always pre-chill your cooler with ice or cold packs before adding perishable items.
2. Use block ice or frozen packs for longer cooling performance.
3. Avoid overloading the cooler; keep the lid securely closed to maintain the internal temperature.

3. Storage Guidelines

1. Store the cooler in a dry, cool place when not in use.
2. Leave the lid slightly open during long-term storage to allow airflow and prevent odors.

4. Avoiding Damage

1. Do not drag or drop the cooler, as this may damage its structure or insulation.
2. Keep the cooler away from sharp objects to avoid punctures or scratches.
