**Step 1:**
Turn the vent upside down and make a cardboard template from the flange. The template should be the same size as the flange with the hole in the middle.

**Step 2:**
Using the template, trace the square and circle onto the roof as shown.

**Step 3:**
Remove cardboard template to show the square and circle pattern.

**Step 4:**
Using a reciprocating saw cut out a hole in the roof deck and remove all debris.

**Step 5:**
Put roofing sealant on the underside along the bottom edge of flange as shown.
Step 6:
Slide vent underneath the shingles, stay within the square outline.

Step 7A:
With the vent in place secure the flange to the shingle roof using a screw gun or drill.

7B:
Required Screw: #10 x 1.5" steel sheet metal screw
Total number of screws required = 16 (tolerance :1/2")

Step 8:
This is how the Aura Vent should look when finished.
