

# Modern Vanity Stool Specification

## 1. Basic Product Information

- Product Name: Modern Vanity Stool, Dressing Stool (dual names for scenario adaptation)
- Core Positioning: A modern home seat integrating practicality, comfort and decorativeness, suitable for makeup, dressing and other scenarios

## 2. Core Technical Parameters

- Maximum Load Capacity: 300 lbs
- Product Length: 18 7/8 inches (i.e., 18.875 inches)
- Product Width: 11 3/4 inches (i.e., 11.75 inches)
- Product Height: 18 1/8 inches (i.e., 18.125 inches)
- Assembly Time: ≤5 minutes

## 3. Material Characteristics

- Main Material: High-quality oak is used as the core structural material to ensure load-bearing stability and structural strength
- Craftsmanship: Processed through sophisticated mechanical and manual polishing, with a smooth surface free of burrs and rounded edges to avoid scratches
- Durability: Oak has a naturally high density and strong deformation resistance; combined with fine craftsmanship, it can be used stably for a long time
- Environmental Standards: Complies with home environmental requirements, odorless and free of harmful volatile substances, suitable for indoor enclosed spaces

## 4. Ergonomic & Comfort Design

- Seat Shape: Concave (curved) structure design that fits the curves of the human buttocks and legs
- Pressure Distribution: The curved design evenly distributes body pressure to avoid discomfort caused by local compression
- Support Effect: Enhances auxiliary support for the waist and buttocks, reducing muscle tension during prolonged sitting
- Cushion Configuration: Equipped with a soft and skin-friendly cushion, featuring a delicate touch that relieves fatigue from long-term sitting, suitable for static scenarios such as makeup and dressing

## 5. Appearance & Space Adaptability

- Appearance Style: Minimalist solid-color design with neat lines and no redundant decorations, conforming to modern home aesthetics
- Decoration Adaptation: Can be matched with mainstream home styles such as Nordic style, minimalist style, modern light luxury style and industrial style, enhancing the modern sense of the space
- Scenario Compatibility: In addition to being used with dressing tables, it can also serve as a bedroom leisure stool or entrance shoe-changing stool, improving space utilization

## 6. Assembly Convenience

- Assembly Difficulty: No professional tools required; basic assembly accessories are included, adopting a simple structure of buckle + screw combination
- Operation Threshold: Clear graphic instructions are provided, which can be completed by one person with an average assembly time of no more than 5 minutes
