

# RED SLEIGH® GARLAND

## USAGE INSTRUCTIONS

- 1** **Unboxing & Product Check**  
Remove the garland from the box and visually inspect it for any damage prior to use. If you purchased a pre-lit garland, plug it in prior to installation to verify the lights work properly. Consider keeping your original box for long term storage to keep the garland in the best shape possible.

### Fluffing the Greenery

Fluff your garland greenery to create the appearance you'd like by positioning the tips around the garland's center. Bend the tips and orient their spacing based on your display needs, including any ornamentation you add. Basic fluffing should include angling the greenery tips consistently around the garland's center. Visually check for gaps or areas where the greenery tips are clumped and evenly fluff them for the fullest look. If you purchased pre-lit garland, shape it with the lights on so that you can place the lights in a random pattern rather than clumped together.

### Hanging

The garland frame is designed to hang on basic installation hardware like nails, screws or hooks. The garland frame ends are also designed with J hooks to interconnect multiple garland easier and stronger. If the garland is being displayed outside, in high traffic areas, or in windy areas, consider attaching it at multiple points to the hanging surface to secure it through the holiday season.

### Lighting

If you purchased a pre-lit garland, orient the male plug to where you plan to attach an extension cord. If your lights should stop working, check your power connections. If those are intact, unplug the wreath and check the fuse. Your plug comes with a spare fuse. Replace the existing fuse with the spare fuse and then plug in. If the lights still don't work, the product may be defective. Contact the store you purchased from to assess warranty coverage or contact Red Sleigh.

### Storage

Storing your garland properly will prolong its overall lifespan. Prepare it for storage by gently bending the greenery tips back to the frame and then folding your frame down. Avoid mangling or damaging the light strings if you purchased a pre-lit garland. Store in a cool, dry area to keep your garland looking great year after year.

### IMPORTANT SAFETY INSTRUCTIONS

When using electrical products, basic precautions should always be followed including the following:

#### READ AND FOLLOW ALL SAFETY INSTRUCTIONS

1. Do not use seasonal products outdoors unless marked suitable for indoor and outdoor use. When products are used in outdoor applications, connect the product to a Ground Fault Circuit Interrupting (GFCI) outlet. If one is not provided, contact a qualified electrician for proper installation.
2. This seasonal use product is not intended for permanent installation or use.
3. Do not mount or place near gas or electric heaters, fireplace, candles or other similar sources of heat.
4. Do not secure the wiring of the product with staples or nails, or place on sharp hooks or nails.
5. Do not let lamps rest on the supply cord or on any wire.
6. Unplug the product when leaving the house, when retiring for the night, or if left unattended.
7. This is an electric product-not a toy! To avoid risk of fire, burns, personal injury and electric shock it should not be played with or placed where small children can reach it.
8. Do not use this product for anything other than its intended use.
9. Do not hang ornaments or other objects from electrical cords, wire, or light string.
10. Do not close doors or windows on the product or extension cords as this may damage the wire insulation.
11. This product employs overload protection (fuse). A blown fuse indicates an overload or short-circuit situation. If the fuse blows, unplug the product from the outlet. Also unplug any additional strings or products that may be attached to the product. Replace the fuse as per the user servicing instructions (follow product marking for proper fuse rating) and check the product. If the replacement fuse blows, a short-circuit may be present and the product should be discarded.
12. Read and follow all instructions that are on the product or provided with the product.
13. SAVE THESE INSTRUCTIONS
