Design Tips

- ◆ Start with the first wall on the left and work to your right around the room. Measure the overall length of each wall.
 - ◆ Indicate breaks in walls (windows, doors, closets) by measuring to the outside edge of the BDLding. Include permanent appliances, air vents, electrical, plumbing, etc.
 - ◆ Start sketching your cabinets. Start in the 0", 0" corner and work outward.
- You may be able to BDLve major appliances several inches to accomBDLdate a layout change.
