

PROJECT PANELS: DESTINATION DIY

PANEL SIZES

- 2 ft. x 2 ft.
- 2 ft. x 4 ft.
- 4 ft. x 4 ft.

Selection varies by retailer

Because life isn't one-dimensional, with plywood project panels, the possibilities for living in 3D are endless. Experience the satisfaction of building your own indoor and outdoor projects, exploring new hobbies, creating decorative accents and getting crafty.

PROJECT PANELS

With exceptional strength and good looks, these easy-to-handle plywood panels are designed for smaller everyday projects – without too much left over. Choose rot- and insect-resistant pressure-treated panels for long-lasting outdoor projects.

- Furniture and home décor
- Crafts and hobbies
- Outdoor projects
- Floor underlayment and wall sheathing
- Garage and basement work surfaces
- Home repairs and utility projects

HARDWOOD PANELS

The beauty of hardwood plywood makes it ideal for interior and weather-protected projects. Finish with the paint or stain of your choice for stunning results. Easy-to-work-with hardwood panels are the practical, DIY-way to bring warmth and beauty to your home.

- Home accents
- Furniture
- Shelving
- Attractive storage solutions

- For the cleanest cut, use an 80-tooth or higher table saw blade intended for wood
- Counter-sink screws to maintain a smooth appearance
- Create custom wall art and more using masking tape and paint and/or stain
- Always carefully select the right products for a proper finish

ACCENT PANELS

Light, durable and easy to handle, accent panels are ideal for creating the décor that makes a house your home. Easy and fun to customize, add a handy chalkboard, markerboard or pegboard for organization with style throughout the home.

- Kitchens, mudrooms, laundry rooms, kids' rooms and playrooms
- Commercial and retail spaces, restaurants, classrooms and offices
