

BOSCH

PRECISION DESIGNED FOR HARD NATURAL STONE TILE

Multigrind head for fast drilling

Bosch Natural Stone Tile Bits provide a multigrind head with multiple edges, designed for harder natural stone tile material. These bits will last longer, and the precision ground tips provide 20 percent faster cutting than standard glass and tile bits. These bits were specially manufactured with high-quality carbide designed for harder material.

NATURALSTONE

up to **2X** LIFE
in Natural Stone

MULTIGRIND ROBUST HEAD

Designed with multiple cutting edges for harder tile materials

SPECIALIZED CARBIDE TIP

Centers for no-skate drilling and greater ease of use

THREE FLAT SHANK

Provides superior grip

- ▶ Engineered for use in natural stone tile, slate, granite and other specialty tile materials (specialty tiles that may be harder than normal tile)
- ▶ Not recommended for use on porcelain tiles

USER SCENARIOS

"I am drilling into a wider array of harder material tile"

"I am frustrated with the speed, life and usability in delicate applications"

"I do not like the high cost of diamond hole saws but I have no alternative"

OPTIMAL FOR (TRADES)

BOSCH VALUE

- ▶ Excellent Performance in Natural Stone
- ▶ Multi-Grind Technology
- ▶ Robust Carbide Head
