

CARE AND MAINTENANCE

All good tools require a certain amount of care and maintenance. By practicing basic maintenance, customers can keep ladders in proper working order and extend their useful life.

- ✓ Promptly clean spills or drips from the ladder. Keep the ladder free from oil, paint or other slippery materials.

- ✓ Routinely inspect and properly replace damaged or worn components and labels according to manufacturer's instructions. Use only Werner Co. authorized replacement parts.

- ✓ Please refer to Werner's Full Line Product Catalog (C-100) for more information.

- ✓ Keep ladders in good condition. Clean and lightly lubricate moving parts such as spreader bars, hinges, locks and pulleys.

- ✓ Always inspect the rails of fiberglass ladders for weathering, cracks or splitting.

- ✓ Keep the ladder protected from heat, weather, and corrosive materials.
