Remove the cap
¼ Turn Clockwise to remove the cap
Alternative cap removal
Spout can be used to remove cap when turned upside down.
Install the Simple Pour Spout
The Simple Pour Spout threads onto the cap with a clockwise turn. Use plastic wings to properly tighten.
Pour the paint into the tray
Pour paint and slowly bring paint can back up to its upright position to avoid any drips.
Remove the spout

After pouring the paint, turn the spout counter clockwise to remove the spout.
Clean spout to reuse at a later time.
Secure cap
Reseal the cap and align the arrows with the window to ensure a secure fit.
