SNAPFENCE!
DURABLE, LONG
LASTING SOLUTIONS

ADD EXTRA PRIVACY & HEIGHT TO ANY EXISTING WALL WITH OUR STYLISH LATTICE FENCE TOPPER

LATTICE FENCE TOPPER INSTALLATION

1

- First lay out all your rails and attach the rail connectors to all your rails, except two.
- Leave the 2 rails, in case you need to make cuts to your rails to adjust for space. Make sure rail connectors are all facing the same directionally when attaching.

2

- Attach posts to base mounts.

3

- Attach vertical caps to posts and secure by firmly tapping with a rubber mallet.

4

- Place and anchor first base mount with concrete crews and anchors (not provided)

5

- Then snap in rails and line up next base mount and secure, continuing on until finished (sawing the last rails if necessary).

6

- Screw lattice to rail and verticals (8 screws per 4ft. recommended)

7

- Screw rail connectors to verticals.

FT24BM 16" x 24'

Part #	Description	QTY
VFR-16	Vertical 15.33"	7
VFP-1	Vertical Caps	7
VFB-1	Base Mounts	7
VFR-46	Rails 46"	12
VFE-1	Corner Rail Connectors	8
VFC-1	Rail Connectors	24
VFM-1	Screws (50) CT.	3
VFLP-2	Lattice (12" X 48")	6

FT48BM 16" x 48'

Part #	Description	QTY
VFR-16	Vertical 15.33"	14
VFP-1	Vertical Caps	14
VFB-1	Base Mounts	14
VFR-46	Rails 46"	24
VFE-1	Corner Rail Connectors	16
VFC-1	Rail Connectors	48
VFM-1	Screws (50) CT.	6
VFLP-2	Lattice (12" X 48")	12

FT72BM 16" x 72'

Part #	Description	QTY
VFR-16	Vertical 15.33"	21
VFP-1	Vertical Caps	21
VFB-1	Base Mounts	21
VFR-46	Rails 46"	36
VFE-1	Corner Rail Connectors	24
VFC-1	Rail Connectors	72
VFM-1	Screws (50) CT.	9
VFLP-2	Lattice (12" X 48")	18

* Eight corner rail connectors included with every 24 feet (to create four corners/turns - if necessary)

Extra parts may be included with order!
