Use and Care Manual for 4 Pack Metal Garden Trellis

Product Description

The 4 Pack Metal Garden Trellis, with dimensions of 71" x 19.7", is designed to support climbing plants and add an elegant touch to your outdoor space. Made from rustproof materials, these black trellises are durable and can also serve as bird decorations.

Installation Instructions

1. **Selecting the Location**
    - Choose a spot in your garden that receives adequate sunlight for the climbing plants.
    - Ensure the ground is level and firm to provide stability.
2. **Preparing the Ground**
    - Dig holes approximately 6 - 8 inches deep where you want to place each trellis.
    - Space the holes according to your garden layout, considering the growth pattern of the plants.
3. **Installing the Trellis**
    - Place the bottom end of the trellis into the hole.
    - Backfill the hole with soil and press it down firmly around the base of the trellis to secure it.
    - If needed, use additional stakes or anchors for extra stability.

Usage Guidelines

1. **Plant Support**
    - Gently guide climbing plants such as ivy, roses, or clematis onto the trellis.
    - Use soft plant ties if necessary to secure the stems without damaging them.
2. **Bird Decoration**
    - The trellis can be placed near bird feeders or baths to enhance the visual appeal for birds.
    - Avoid placing heavy objects on the trellis as it is not designed to hold weight beyond climbing plants.
