

12-Ton Hydraulic Long Ram Jack

Sturdy & Durable & Great Helper

This VEVOR 12-Ton capacity long ram hydraulic jack helps you convert your existing hydraulic hoist to a convenient and fast hoist. It is a quick way to raise loads without the backache. A must-have for hydraulic cranes, engine hoists, and a wide variety of applications. Mounts directly onto most shop cranes. Vertical use only.

- Handles up to 12-Ton
- 26" ~45.7" Lifting Range
- Reliable & Durable Jack
- Labor-saving Long Ram
- Sturdy Steel Construction

VEVOR is a leading brand that specializes in equipment and tools. Along with thousands of motivated employees, VEVOR is dedicated to providing our customers with tough equipment & tools at incredibly low prices. Today, VEVOR has occupied markets of more than 200 countries with 10 million plus global members.

Why Choose VEVOR?

- Premium Tough Quality
- Incredibly Low Prices
- Fast & Secure Delivery
- 30-Day Free Returns
- 24/7 Attentive Service

12-Ton Load Capacity

With 12 tons of load-bearing capacity, the long ram jack easily supports your shop cranes, engine hoist, and more. Save your effort and time.

26"-45.7" LIFTING RANGE

26"-45.7" Lifting Range

The long ram jack features a lifting range from 26" to 45.7" with an ample 19.7 in. stroke. Lift your hoist with ease!

PREMIUM DETAILS

Hydraulic Steel Cylinder

Integrated built-in oil-bypass and overload valve that protects the hydraulic system from extending beyond limits.

SINGLE PISTON PUMP & CLEVIS BASE

Single Piston Pump & Clevis Base

The pressure pump is designed to lift with minimal muscle and effort. And clevis style base allows it to mount directly onto most shop cranes.

DURABLE STRUCTURE

High-grade Steel Structure

The long ram jack is constructed of heavy-duty steel for added strength. It is treated with powder-coated, lead-free paint, providing a durable coating.

WIDE APPLICATION

Residential and Commercial Use

Our hydraulic long ram jack is intended for residential and commercial use, fitting garage/shop cranes, engine hoists, and more.

Specifications

- Model: VV-CGQJD-HODJ-12T
- Lifting Capacity: 12 tons/26455 lbs
- Min. Lift Height: 26 in/66 cm
- Max. Lift Height: 45.7 in/116 cm
- Stoke: 19.7 in/50 cm
- Piston Rod Diameter: 1.3 in/ 3.4 cm
- Pinhole Diameter: 0.7 in/ 1.7 cm
- Product Diameter: 3.1 in/8 cm
- Weight: 25.4 lb/11.5 kg

Package Content

- 1 x Hydraulic Long Ram Jack
- 1 x Handle

Hydraulic Long Ram Jack—Heavy-Duty Lifting for 12 Tons

The VEVOR hydraulic long ram jack is simple to install and use. It can handle up to 12 tons, making it perfect for both small businesses and home garages. High-quality materials ensure durability as well as long-lasting performance. This hose is a direct replacement for old or worn-out engine hoist cylinders. You don't need to make any modifications. The double-pump model makes lifting more efficient. We recommend using pressure on both the up and down strokes of the handle. Our feature saves time and effort when lifting heavy loads. Additionally, this feature eliminates the need for manual maintenance. The surface is resistant to oil, grease, and dirt. So, you can easily clean your machine. The price is reasonable compared to rebuilding your old solution. They're ideal for any garage or workshop where there is an area that has not yet been used before. Get the VEVOR hydraulic long ram jack for reliable lifting power.

Easy Installation and Perfect Fit for Engine Hoists

This feature is especially useful for those who need a quick solution. The perfect fit ensures no leaks or malfunctions. It's based on the simple installation process. You save money on costs associated with professional installation. Get the VEVOR hydraulic long ram jack for a seamless fit.

Dual-Piston Pump for Efficient and Quick Lifting

It's especially useful when lifting heavy loads. The dual-piston pump reduces the effort needed. This makes it easier for one person to operate. You get a faster lifting speed, which is very important for busy garages and workshops. Our pump is reliable and performs consistently. So, you can handle the maximum lifting capacity. The dual piston design is an upgrade over single piston models. We recommend using this tool for anyone needing quick lift solutions.

Durable Construction with Oil-Resistant Surface

The VEVOR hydraulic long ram jack is built to last. It's made from high-quality materials that ensure durability. The surface is resistant to oil, grease, and dirt. This makes it simple to clean and maintain. The oil-resistant surface prevents corrosion. So, this extends your jack's lifespan. Materials are high quality and reliable. Our hose can handle heavy loads repeatedly without issues. The structure is solid. We have provided a reliable tool for lifting engines and a lot of other heavy items. These qualities give you dependable performance for your investment. Get the VEVOR hydraulic long ram jack for reliable long-term results.

Cost-Effective Solution for Replacing Engine Hoist Cylinders

It's a cost-effective solution for replacing old engine hoist cylinders. The price is reasonable compared to buying new lifting equipment. This tool fits perfectly, saving on costs associated with modifications. A dual-piston pump adds value by improving efficiency. Durability reduces the need for frequent replacement in small businesses and home garage applications because it requires less frequent replacement. Cost-effectiveness makes it an attractive option for small business owners or home garages as well. Our jack offers a balance of quality and affordability. It can be considered for anyone who needs reliable lifting power. Get the VEVOR hydraulic long ram jack to achieve efficiencies without any additional expense.

Enhanced Safety Features for Secure Lifting Operations

The VEVOR hydraulic long ram jack includes safety features. These ensure secure lifting operations. The clevis base provides a firm attachment to the hoist. This prevents wobbling or shifting during use. Strong construction reduces the risk of malfunctions. Oil-resistant surfaces prevent leaks and ensure stability. A dual-piston pump makes lifting more controlled. It reduces the risk of accidents during operation. Safety features make it ideal for both professionals and DIY enthusiasts. Our jack is designed to handle heavy loads safely. You can trust this reliable tool for any lifting task. Experience peace of mind with our enhanced safety features. Get the VEVOR hydraulic long ram jack for secure, safe lifting.

Versatile Use in Garages, Workshops, and More

The VEVOR hydraulic long ram jack is versatile. It's perfect for use in garages, workshops, and other settings. You can lift engines, transmissions, and numerous other items. This makes it an excellent tool for mechanics and DIY enthusiasts. The compact design makes storage easy. So, it'll be portable if needed. You can move the jack as needed. The versatility extends to various lifting tasks. Get the VEVOR hydraulic long ram jack today.
