

# Use and Care Instructions

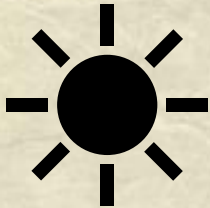

## Eugenia Topiary (Eugenia Myrtifolia)

Grown by United Nursery, the Eugenia Myrtifolia, or more commonly known as the Eugenia Topiary 2 ball, is a lush plant with glossy foliage which makes the Eugenia an attractive solo specimen, but also a classy companion to other plants in mixed groupings. When allowed to mature, where hardy, the bark develops attractive patterning with flakes of cream, pink and tan.

### Light

High

### Water

High to Medium

### Fertilizer

Spring and Summer

### Temp

Comfy at 55 to 90 (F°)

### Growth

3-4 ft tall

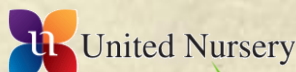

### Indoor/Outdoor

Indoor
