BEHR MARQUEE® Interior Matte

- One-Coat Hide Guaranteed*
- Lasting Beauty & Durability
- Advanced Stain-Blocking Paint & Primer®
- Superior Durability & Stain Resistance
- Scrubbable, Easy-Clean Finish
- Lifetime Limited Warranty*
- Low VOC, 100% Acrylic
- Antimicrobial-Mildew Resistant Paint Finish

1A primer coat may be needed on some surfaces. See preparation and prime for details.

WHERE TO USE

- Ideal for every room and provides a non-reflective, matte finish.

PREPARATION & PRIME

Properly prepare and clean all surfaces. Remove loose paint, wash off dirt and grease with detergent, rinse and allow to dry. Remove mildeew stains with a mildeew stain remover. Scuff sand glossy surfaces and repair imperfections. Remove all dust with a damp cloth, allow to dry. Allow new stucco, plaster and masonry to cure for 30 days before painting. Use MARQUEE Paint as a primer for uncoated, porous or repaired interior surfaces, including woods that contain tannins (two primer coats required for redwood and cedar). STAINED SURFACES: Lock in stains with MARQUEE Paint as a spot primer. For heavy stains, test for stain bleed-through by applying MARQUEE Paint to a small section. If the stain bleeds through, spot prime with another coat to the stained area and test again before topcoating. If bleeding continues, a longer dry time is needed before topcoating.

APPLICATION

- Apply when air and surface temperatures are between 50 – 90°F (10 – 32°C). Stir paint occasionally. Intermix containers of same product to ensure color and sheen uniformity. Use a high quality 3/8 – 1/2” nap roller cover, nylon/polyester brush or an airless sprayer (.015 – .019” spray tip, 60 mesh filter). Do not thin if using a roller or brush; however, if using a sprayer and thinning is required, thin with water at a rate of no more than 1/2 pint per gallon. Fully saturate roller best-fit coverage. Darker colors may require additional dry time between coats. Cooler temperatures or higher humidity may prolong drying time. After 4 weeks, cured paint film may be cleaned with a mild, non-abrasive liquid detergent. Dry paint film is mildew resistant. Do not use on floors.

DISPOSAL

- For disposal of empty containers, unused paint and soiled rags, contact your household refuse collection service.

WARNING! If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. Contact the National Lead Information Center at 1-800-424-LEAD or log on to www.epa.gov/lead.

WARNING! IRRITANT CAUSES EYE AND SKIN IRRITATION. MAY CAUSE RESPIRATORY TRACT IRRITATION. CONTAINS ETHYLEXYLBENZOATE, CRYSTALLINE SILICA AND TITANIUM DIOXIDE Avoid contact with skin and eyes and avoid breathing vapors, spray mist and sanding dust which may be harmful if inhaled and has been shown to cause lung damage or cancer with long term exposure. Do not breathe dust, vapor, or spray mist. To avoid breathing in dust, vapors, and spray mist, open windows and doors or use other means to ensure fresh air entry during application, drying, sanding, and/or abrading. If properly used, a respirator (NIOSH approved with particulate pre-filter) may offer additional protection and should be used if adequate ventilation cannot be provided; obtain professional advice before using. If you experience eye watering, headaches, or dizziness during application or drying, increase fresh air or leave the area. Avoid contact with eyes and skin. Wash thoroughly after handling. Close container after each use.

FIRST AID: If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 20 minutes and get medical attention; for skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately.

CAUTION: KEEP OUT OF REACH OF CHILDREN - DO NOT TAKE INTERNALLY.
