

The non-slip tape is made of grip material with a fine texture to enhance the friction between the foot and the ground. It can adhere to all surfaces. Provide the most comprehensive protection for you and your loved ones without sacrificing comfort.

Installation Guide:

- First, clean the surface to keep it clean and dry. Ensure the surface is completely free from dust and grease.
- Then, cut the tape to the desired length and round the corners with scissors.
- Finally, lay the anti-slip tape to the desire location.
