

New HANDS FREE Grille Installation

SPEEDI-GRILLE

Designed to install HANDS FREE with the patent pending clip-in design. Speedi-Grille stays seated in place leaving your HANDS FREE to install trim mounting screws with a screw driver or screw gun. You no longer need to hold grilles in place while trying to start a trim mounting screw!

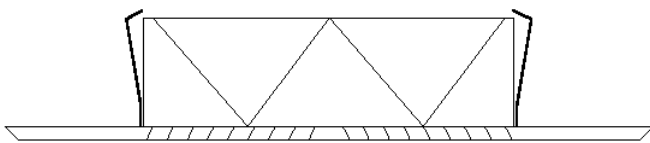

The Speedi-Grille Components

- **Speedi-GRILLE** installs in just a few seconds in Speedi-BOOT applications. Clips hold Speedi grille in place and align mounting holes to Speedi-Boot mud ring. So you're hands are free to finish the job.

*Hands Free Installation
(ceiling installation)*

- **Speedi-GRILLE** can be used in non Speedi-Boot installations as the patent pending HANDS FREE clips will not interfere with standard vent boots. Grille trim screws must be installed for secure installation.

*Speedi-GRILLE
Clip-Design*

The Speedi-Grille Advantage

• UNIQUE BENEFITS

- Clip in design provides HANDS FREE installation
- Precise fit for improved air flow
- Mounting holes aligned with Speedi-BOOT mud ring

• STANDARD FEATURES
