### **Care and clean guidance:**

Please clean the furniture with a soft cloth and a dilute soap solution. Rinse it with water and let it dry thoroughly.

Caution:

Do not use pressure cleaning machines or you will damage the structure of the wood. Obstinated dirt can be removed by applying more pressure when cleaning with soft cloth. Afterwards please polish the surface with a soft cotton cloth.

Then please treat the wood with a type of maintenance oil suitable for Acacia wood. Make sure the oil's colour pigmentation matches the colour of the wood.

For a more intensive treatment, you will need to oil the wood once or twice. Let the furniture get dry for at least 48 hours before using it again.
