

## Care and Maintenance

To prevent overall soil, frequent vacuuming, or light brushing to remove dust and grime is recommended. Spot clean with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry-cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product which is highly toxic. If using either method, pretest a small area before proceeding. Use a professional furniture cleaning service when an overall soiled condition has been reached.
