TECHNICAL SPECIFICATION: Wallo Round Access Panels are designed to allow access to service areas. Access Panels can be used for access to plumbing, electrical, security systems, telephone, computer cables, and sprinkler systems.

PHYSICAL/CHEMICAL PROPERTIES

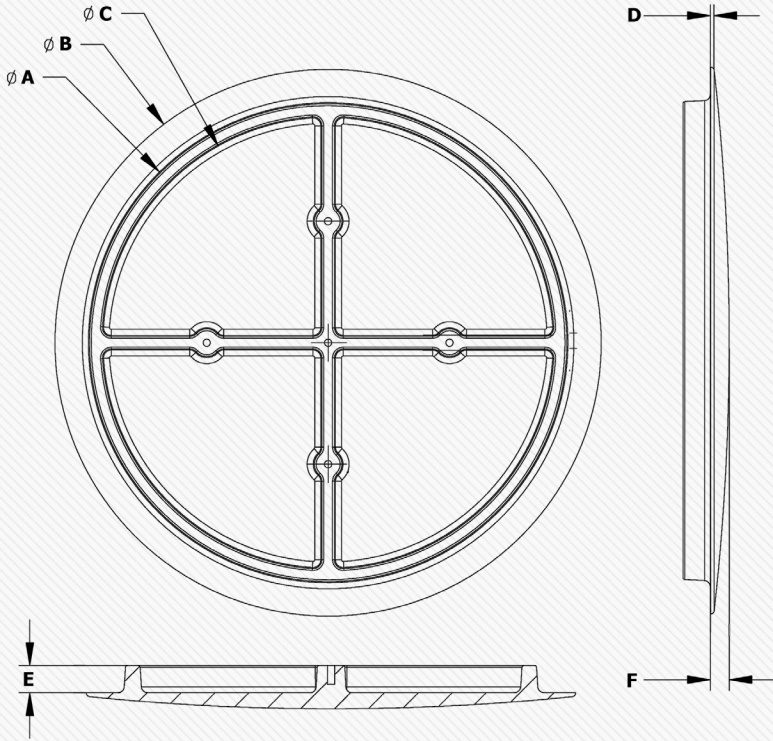

Material: High Impact ABS
 Color: White
 Melting point: 325 °F

DIRECTIONS FOR USE

Cut appropriate size hole opening in a drywall ceiling or wall using a drywall saw (not included). You might use inner circle as a template. Slightly bend metal strip and insert plastic plate into a hole, align if needed. Paint the surface to match your ceiling color.

COMMON APPLICATIONS

Wallo Round Access Panel allows easy access to ductwork damper controls, electrical junction boxes, plumbing cleanouts, and valves concealed behind drywall. Does not require framing, screws, latches or fasteners. Spring-loaded clips make installation and removal of the panel a snap. Attractive — can be painted or wallpapered to match any existing room décor. Works in walls or ceilings up to 3/4" thick.

Data is subject to manufacturing tolerances.

	PRODUCT	DESCRIPTION	A	B	C	D	E	F	PACK
✓	APR-0501	Round Access Panel	3.95"	4.75"	3.5"	0.06	0.25	0.15	10
	APR-0701	Round Access Panel	5.91"	7"	5.5"	0.06	0.45	0.31	5
	APR-0901	Round Access Panel	7.9"	9"	7.4"	0.06	0.45	0.31	5

*Deviations of less than .25" will be covered by the flange on the panel
