

**SINGLE-STEP™**  
**REFRESHER**  
**& POLISH**  
**GLOSS****READ CAREFULLY BEFORE USE!**

Do not use on laminate flooring.

For Wood Floors: **For occasional use only to refresh worn finishes.**

**NEW INSTALLATIONS:** For an even sheen and to add protection, apply 1-2 thin coats. Allow 30 minutes to dry between coats and 2 hours before replacing furniture. Great for occasional use to clean, protect and freshen your floor. **NOT a daily or weekly cleaner.**

**FLOOR PREP:** Sweep or vacuum floor. New or very dirty floors should be pre-cleaned with a vinyl cleaner to reduce chances of trapping dirt. Stains, black scuff marks, grit, oil or other contaminants should be removed first. Deep scratches and scuffs in vinyl can be made less visible by scrubbing in the direction of the grain with a green scrub pad. To refresh worn wood, vinyl, tile or stone floors, strip well before using.

**APPLICATION:**

- 1) Apply a small amount directly to the floor in an "S" shape and spread immediately using a clean, well-rinsed microfiber mop. Note: a sponge mop can apply too much polish.
- 2) Mop Single-Step evenly in the direction of the woodgrain; pressing extra hard to scrub out stubborn dirt or spots. Rinse mop often with clean water.
- 3) Spots or stains not removed prior to Single-Step drying may become permanent.
- 4) Avoid puddling or uneven mopping. Do not walk on wet areas.
- 5) Remove excess Single-Step with the mop as you go; avoid leaving a thick coat or puddles. **To remove cloudiness or excess polish, use a standard vinyl stripper.**

**COVERAGE:** 24-oz. bottle of Allure Single-Step covers up to 750 sq. ft. if applied in thin coats. Do not apply in thick coats.

For questions or assistance, call 800-842-4888.

**CAUTION: KEEP OUT OF REACH OF CHILDREN.**

May cause eye irritation on contact. First Aid: If swallowed, drink 1 or 2 glasses of water. Contact your physician. For eye contact: Flush eyes with water for 15 minutes. If applicable, remove contact lenses and continue to flush with water.
