SAVOGRAN

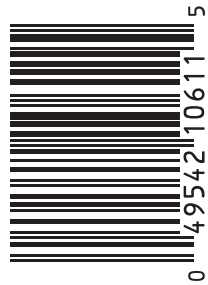

TSP-PF
Phosphate-free

ADVERTENCIA: Contiene meta silicato de sodio. Evite el contacto con la piel y los ojos. Puede causar quemaduras o irritación. Nocivo si se ingiere. Use guantes de goma, protéjase los ojos con gafas y use camisa manga larga a fin de proteger la piel de salpicaduras, así como chorreaduras y goteos de arriba. Lave muy bien toda la ropa que se haya contaminado antes de volverla a usar.

Primeros auxilios: Si se ingiere, tome mucha agua o leche, luego siga con jugos cítricos o vinagre diluido y llame a un médico, a la sala de emergencias de un hospital o al centro de control para envenenamientos. **CONTACTO CON LOS OJOS:** Lave con mucha agua por lo menos durante 15 minutos; procure atención médica rápidamente. **CONTACTO CON LA PIEL:** Lave exhaustivamente con agua y jabón. Si se produce rojez en la piel, detenga su uso y solicite ayuda médica rápidamente.

Removes grease, oil, sooty dirt and prepares painted surfaces for repainting. TSP-PF is a heavy duty cleaner with the equivalent cleaning power of TSP for use where phosphate cleaners are prohibited.

DIRECTIONS: Read all information below before using this product.

Heavy Duty cleaning: Dissolve 1/4 cup TSP-PF in 2 gallons of warm water. Set pail on paper to avoid ring marks. **Walls and woodwork** – squeeze excess cleaner from sponge or cloth and wash from bottom up to avoid streaking. A second washing may be needed. Rinse cleaned area with clean warm water. **Floors** – wring excess cleaner from mop or sponge and wash floor in small areas. For printed floor coverings, use a very weak solution (less than 1/8 cup of TSP-PF in 2 gallons of warm water). Rinse with clean warm water and wipe up excess water. Do not allow water or TSP-PF solution to stand in puddles. **Household cleaning** – Dissolve 1/8 cup TSP-PF in 2 gallons of warm water. Follow suggestions given under heavy duty cleaning. Always try cleaning with TSP-PF solution in an inconspicuous place to be sure results will be satisfactory.

Mildewed Deck and Siding: Remove by washing with solution of 1/2 cup of TSP-PF dissolved in 3 quarts of warm water and add 1 quart bleach. Use with a U.S. EPA registered bleach product that contains use directions for mold and mildew control. Use solution to scrub area thoroughly, using scrub brush or coarse rags. For uniform results, treat entire area not just the stain. TSP-PF removes dirt and grime. If stain remains, use second application. When mildew stain is gone, rinse thoroughly with clean, warm water and dry surface completely before painting. Use mildew resistant paints where fungus has been a problem. If fungus grows on mildew resistant paint promptly consult with paint manufacturer before removing the fungus.

WARNING: Contains Sodium Sesquicarbonate (C.A.S. 533-96-0), Sodium Metasilicate (C.A.S. 6834-92-0) and EDTA, Tetrasodium (C.A.S. 64-02-8). Avoid contact with skin and eyes. May cause burns or irritation. Harmful if swallowed. Wear rubber gloves, protect eyes with goggles and wear long sleeve shirt to protect skin from splashes and overhead runs and drips. Thoroughly wash all contaminated clothing before reuse.

First Aid: If swallowed, give large quantities of water or milk, follow with citrus juice or dilute vinegar and call physician, hospital emergency room or poison control center. **EYE CONTACT:** Flood with plenty of water for at least 15 minutes; get medical attention promptly. **SKIN CONTACT:** Wash thoroughly with soap and water. If redness of skin occurs, discontinue use and consult physician promptly.

CAUTION: Hot TSP-PF solutions may remove or degloss paints and enamels. TSP-PF may darken oak, mahogany and some other woods, NOT RECOMMENDED for use on windows, mirrors or other glass products. KEEP TSP-PF POWDER AND SOLUTIONS OUT OF REACH OF CHILDREN AND ANIMALS. Contact with TSP-PF soaked papers or puddles may irritate animal's foot pads. Do not mix with acids. Use only according to mixing directions on container. Protect vegetation by spraying plants, grass and shrubbery with a fine water mist prior to using this product. Rinse plants and shrubs thoroughly after use.
