

Care and Cleaning

GENERAL CARE

- Place mats and area rugs at main entrances to minimize abrasive debris that may be tracked in on shoes.
- Place protective pads under furniture legs and other movable furniture.
- Use protective mats under wheeled office-type chairs.
- Avoid using lacquers, polishes, waxes or detergent-based cleaners as they will leave a film on the surface of the floor and may cause irreparable damage. The surface of this flooring does not require refinishing and will maintain its original appearance.
- Never use abrasive cleaners.
- This laminate flooring is waterproof. Care should be taken whenever the potential for moisture exposure is present.
- Do not leave a steam cleaner in the on position in one place for prolonged periods.

DAILY CLEANING

- Use a dust mop or vacuum with a hard surface attachment to remove dust, loose dirt, or debris.
- For a more thorough cleaning, where a cleaning solution may be required, use a water-based laminate floor cleaner. Lightly mist the cleaner into the soiled surface and wipe up immediately.
