

CARE INSTRUCTION

- 1.Wipe with clean water from spot to spot and then air dry.
- 2.When they are not in use, please cover them or move them indoor.
- 3.We recommend the product should be covered outdoor when it rains.The water drops fall onto the fabric surface and can be wiped up.If they stay for a long time,they should probably get into the foam.This will shorten the service life of the product.
4. If store the product indoor,please place them in cool and dry air.
