

ORIGINAL CEDAR COMPOSTER | ASSEMBLY INSTRUCTIONS

Questions? Email info@greenesfence.com or call 800-622-5510 Monday - Friday 8am-5pm EST

PACKAGE CONTENTS

3 1/2 in. x 2.5 in. x 2.5 in.
Corner Posts

3ft. Boards

Spacers

1.

BUILD A WALL

Hold a Board on the ground so it's standing on edge with the notched ends to the left and right. Slide a Corner Post down over one notched end of the Board. Next, slide another Corner Post over the other notched end. This forms a wall.
Repeat Step One to complete a second wall.

2.

BUILD A FRAME

Place the walls parallel to each other and connect them into a square with two more Boards. This forms the frame of the Composter.

3.

BUILD THE COMPOSTER WALLS

Slide one Spacer into the top of each Corner Post, and push them down so they are directly on top of the Boards on all four walls. Then slide one Board down on top of the Spacers. If needed, tap snugly into place with a rubber mallet.
Repeat with alternating Spacers and Boards to complete all four Composter walls.

3 BIN COMPOSTING SYSTEM

This 3-Bin Composting System requires one full Composter and two Composter Add-On Kits of the same size (sold separately).
