EXCEPTIONAL PERFORMANCE

- AUTOMATED POUR OVER COFFEE TECHNOLOGY is not like that of a drip coffee maker. Unlike drip coffee makers that continuously flood the brew basket, the new KitchenAid® Pour Over Coffee Brewer precisely heats and pulses the flow of water, steeping in the same manner as the manual pour over process, allowing the grounds to "bloom." The result is bright, clean and full flavored coffee without diluting due to over-soaking.

- UNIQUE BREWING TECHNOLOGY achieves optimal brew temperature, key for proper extraction and flavor.

- CLEAN AND BRIGHT FLAVOR PROFILE, allowing you to taste the complex layers of flavor within the coffee.

WHAT IS THE SCAA?

The SCAA is the Specialty Coffee Association of America, a non-profit trade organization and world-recognized leader in coffee knowledge development. For over 30 years, the SCAA has been dedicated to recognizing, developing and promoting specialty coffee by setting and maintaining quality standards for the industry.

HOW DID KITCHENAID® POUR OVER COFFEE BREWER BECOME SCAA CERTIFIED?

The SCAA recognizes home brewers that meet its longstanding rigorous technical requirements: Ability to brew within the SCAA Gold Cup recommendations, Proper water temperature and Brewing time.

The KitchenAid® Pour Over Coffee Brewer is recognized as an exemplary home brewer, joining the short list of SCAA Certified Brewers.
ENDURING DESIGN

- PROGRESS INDICATOR LIGHTS shows each step of the brewing process, from heating the water, to pouring over the coffee and then steeping.

- ONE-TOUCH CONVENIENCE with easy, one-touch brew button and LED indicator light.

- CORD WRAP for convenient storage.
