HERE'S HOW TO TAKE CARE OF ME

Lucky Bamboo

LIGHT

I tolerate low light well, but also grow in bright spots. I don't even need natural light to thrive; I can grow with fluorescent lighting too.

WATER

I can be watered regularly, keeping the soil evenly moist, or grow my in water only!

FOOD

Feed me once or twice a year during Spring and Summer with a fertilizer formulated for houseplants.

FEATURES

I am slow growing with intricately arranged stems.

GROWING TIPS

Use rain water to reduce the chemical content in the water, but for the most part, this plant grows just fine in regular tap water.

GIVE ME FRIENDS

(I play well with)

Money Tree, ZZ Plant, Orchid
