

## Double Extreme Grill Light

BBQD410

### Instruction Manual

You Have purchased the most unique and versatile grill light ever created. It's designed to last for years of use around your grill, garage, or campfire. It's distinctive, durable, super-bright, and fits a wide range of uses.

The Double Extreme Grill Light features:

1. Two super-bright LED lamps
2. Mounted on two 18" flexible stainless steel goosenecks
3. Each lamp contains 12 efficient LED bulbs
4. The famous BBQ Dragon heat-resistant clamp – clips just about anywhere
5. Uses 4 AA batteries – inside the handle
6. The combination of battery power and lamp efficiency means this light stays bright all night

Installing batteries:

1. Push the battery clip on the end of the handle out with your thumb to expose the battery compartment.
2. Install 4 AA batteries. Note the polarity symbols on the inside of the battery cap, or look inside the battery compartment: the spring side accepts the batteries

negative side down, the other side accepts the batteries positive side down.

3. Replace the battery cap

To turn the light on and off, push the button. The spring clamps open wide enough to clip almost anywhere. Adjust the lamps on their goosenecks for desired lighting. The clamp can also be placed on its side on the ground or a table, as a free-standing base, with the lights adjusted as desired above.

Use for:

Outdoor grilling  
Auto Repair  
Camping  
Emergencies  
A handy flashlight

NOTE: If you won't be using the light for some time, remove the batteries to prevent damage in case of leaking.

Alkaline batteries or rechargeable NiMh batteries are recommended.

Wipe clean with damp cloth. Do not immerse in water.

**BBQ Bold. BBQ Fresh. BBQ Dragon.**
