

GENERATIONS OF TRUST.

long before your seed is grown. While most grass seed companies buy their seed on the open market, we are the only major grass seed company that works directly with a network of dedicated growers. Built on decades of trust and integrity, our relationships with seed growers and their families now span multiple generations. Our legacy of working directly with farmers to bring you the finest grass seed possible helps ensure their success and ours. At Pennington, we know our seed and the farmers who grow it. From field to final product, that's the Pennington way.

STEP 2 APPLY FERTILIZER

recommended rate.

PREPARE FOR BARE SPOTS/NEW LAWNS: Remove debris, then rake the soil to loosen and smooth

FOR OVERSEEDING/THIN AREAS: Start by mowing existing grass as short as possible followed by removing debris. Then rake the soil to loosen and smooth the top layer. **PARA RESIEMBRA O ZONAS DELGADAS:** Corte el césped existente lo mas corto sea posible y elimine los desechos. Luego, rastrille la tierra para aflojar y suavizar la capa superior.

APPLY SEED Spread the seed evenly using a drop, rotary or hand-held spreader according to the recommended spreader settings listed. Rake gently to work your seed & fertilizer into the soil.

Apply a starter fertilizer at the manufacturer's

APLIQUE UN FERTILIZANTE: Aplique la cantidad de fertilizante recomendada por el fabricante.

suavemente para que las semillas y el fertilizante germinen en la tierra. STEP WATER Keep the soil moist by watering daily as needed until grass sprouts and reaches about 3" tall. **RIEGUE**: Mantenga la tierra húmeda al regar lo que sea necesario por día hasta que el céspe<mark>d brot</mark>e y alcance alrededor de 3 pulgadas (7,62 cm) de alto.

ADDITIONAL CARE TIPS

Mow lawn when grass height Avoid removing more than 1/3 of the total B Hot summers can be stressful on your lawn; increase the

mowing height during hot and dry periods to reduce stress on your lawn

MOST IMPORTANTLY - Don't kill the grass before it starts by using weed control (pros call it preemergent) on your lawn until your grass has reached its full mowing height of 3"
