Recommended Tools

- Drill & 3/32 Bit
- Small Common Screwdriver
- 5/16 Wrench or Nut Driver
- Phillips Head Screwdriver
- Wire Cutters/Strippers
- Hammer

Included Components

DCM (Door Control Module)

DPS (Door Position Sensor)

Hardware Bag

Power Pack

Wire Spool

Insulated Staple x30

STEP 1

In the Home close to Wi-Fi Router:

"Wi-Fi router must meet these specifications: 802.11 b/g/n, 2.4GHz with WPA2 or WPA Security"

1. Remove mounting bracket from back of DCM. FIG.A,
2. Plug Aladdin Connect® into wall outlet with Power Pack. FIG. B.
3. Plug Power Pack into DCM controller.

STEP 2

In the Home close to Wi-Fi Router:
Download the Aladdin Connect® app.

1. Scan the QR code below or visit your devices app store to start the setup of the Aladdin Connect® device. **Search your app store for Aladdin Connect**
2. Follow the on-screen menus to create an account and program system prior to wiring in the garage.
3. At the installation prompt, disconnect Power Pack and move system to the garage.

STEP 3

In the Garage:
These factors must be determined prior to mounting Aladdin Connect® (DCM) to the wall or ceiling.

1. Optimal Wi-Fi signal strength.
If an optimal signal cannot be located within the garage, move the wireless router closer to the garage or install a Wi-Fi range extender

(Available from most electronic stores)

2. Desired DCM location.

3. Access to 110VAC outlet within 5 feet.

1. Plug Power Pack into wall outlet and DCM near the chosen mounting location.
The WI-FI signal indicator LED should illuminate signaling that the Wi-Fi signal is still in tact.
   - A **GREEN** LED indicates a good Wi-Fi signal.
   - A **RED** LED, indicates a lost or faulty signal. Move Aladdin Connect® to a position that better suits the Wi-Fi signal from the router. Contact Customer Service for further assistance. (1-866-599-4995)
2. Once an **optimal** signal and location is obtained, **UNPLUG Power Pack** from the DCM and continue to **STEP 4**.

STEP 4

Wire Aladdin Connect®: (Single door install shown)

Aladdin Connect® will wire directly to the wall control connections at the powerhead or directly to the wall control. New Genie models shown.
Visit www.GenieCompany.com/AladdinConnect for more information on older models and other brands of garage door openers.

1. Make sure garage door opener is unplugged.
   • Leave wire spool intact for this part of the install.
2. Split provided dual strand wire approximately 2 in. then strip 1/2 in. of insulation. FIG. A.
3. Press orange tabs down and insert both wires into connection points for DOOR 1 on the back of the DCM. FIG. B.
4. Trim and split the other end of the dual strand wire approximately 2 in. and then strip 1/2 in. of insulation. FIG. A.
5. Insert wire into wall control inputs either:
   • (**OPTION A**) Directly to the garage door opener.
   • OR
   • (**OPTION B**) To the Back of the wall control.

Existing Wall Control Wire.
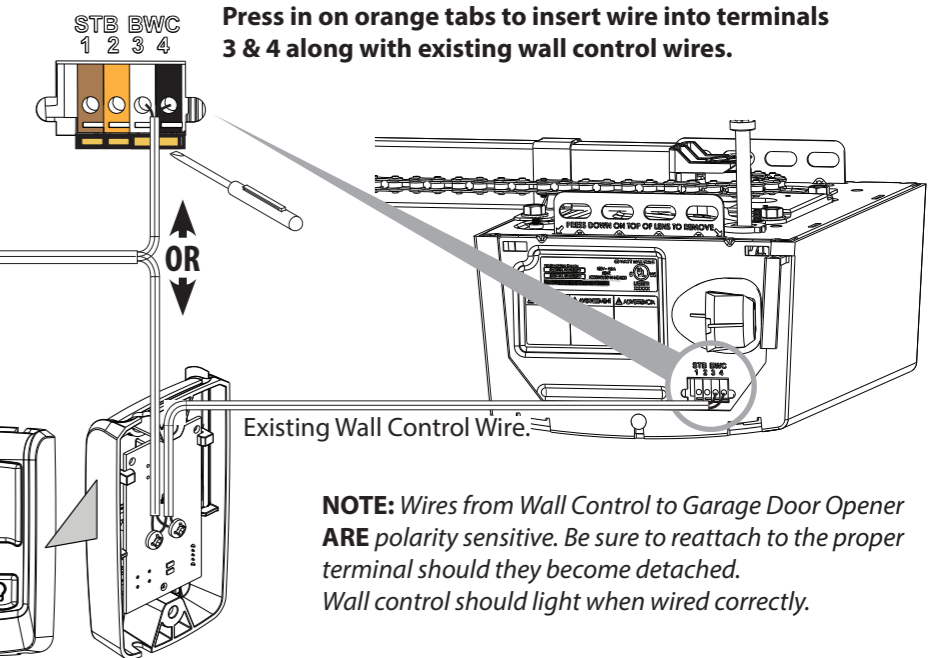

NOTE: *Wires from Wall Control to Garage Door Opener* **ARE** *polarity sensitive. Be sure to reattach to the proper terminal should they become detached.*
*Wall control should light when wired correctly.*

***Wiring methods for other garage door openers.**
All Genie brand and most competitor brands of garage door openers will operate with Aladdin Connect®. Visit www.GenieCompany.com/AladdinConnect to check compatibility with other manufacturer's controls or check your garage door opener's owners manual for wall control wiring instructions. Aladdin Connect® will operate up to 3 garage door openers.

STEP 5

Mount and Power Aladdin Connect®:

1. Using the DCM mounting bracket as a template at the optimal Wi-Fi location. Mark and drill 2-3/32" pilot holes and mount bracket to wall using supplied screws. If mounting to drywall, use anchors provided in kit or if mounting to perforated angle at opener location, use nuts, washers and screws provided.
2. Plug Power Pack into wall outlet. An extended screw is provided to secure Power Pack to outlet if needed.
3. Plug Power Pack into back of DCM as shown in **STEP 1**.
NOTE: *LEDs on DCM will flash momentarily as it reacquires signals.*
4. Snap DCM onto mounting bracket.
5. Route wires and secure with supplied staples.
6. Affix the warning placard next to wall control or DCM in plain sight to signify that the door will operate remotely.

⚠ WARNING / AVERTISSEMENT
MOVING DOOR can cause serious injury or death.
STAND CLEAR!
Door could close automatically.
Do Not stop or stand in doorway
MOUVEMENT PORTE peut causer des blessures graves ou la mort.
SE TENIR À L'ÉCART DE LA PORTE!
La porte pourrait se refermer automatiquement.
Ne pas arrêter ou rester debout dans la porte.

STEP 6

Mount DPS Module to Garage Door:

DO NOT remove the battery "**PULL TAB**" from DPS until directed by the app.
The DPS should be mounted on the **TOP door panel** only. Mount to steel reinforced end stile on the far left or right under the top hinge. DO NOT mount to unreinforced door panel.

1. Clean door where DPS will mount.
2. Install double sided tape to back of mounting bracket and affix to door.
NOTE: *Double sided tape is designed to hold bracket in place temporarily only. Not to be used for permanent mounting.*
3. Pre-drill 2 - 3/32 holes. DO NOT drill all the way through door.
4. Use included self tapping screws to mount DPS bracket to top door panel end stile.
5. Slide DPS down onto mounting bracket. DPS should snap onto bracket.
NOTE: *The DPS included with this kit is already programmed to the DCM. See the NOTE under* **STEP 7** *regarding additional sensors (DPS).*

STEP 7

Complete the Programming:

1. Restore power to the garage door opener.
2. Follow the on screen prompts to complete the set-up and test the Aladdin Connect® system.
NOTE: *This kit includes one DPS for use with one door only. The DPS included is already programmed to the DCM . Additional sensors can be purchased separately from your local Genie retailer. To program additional sensors, first complete STEP 7 initial setups and programming, then go to "Add a Door Sensor" under the "Doors" tab inside the app or view the installation video at www.GenieCompany.com/AladdinConnect/InstallationVideo.*
NOTE: *A white light will flash and an audible beep will sound as an indication that the door is about to move when commanded by the Aladdin Connect® or other compatible app(s).*

Mounting DPS Sensor

END STILE
Garage Door
Garage Door
Features:
If the garage door opener is operated by any means, the Genie Aladdin Connect® app will send an alert to your device indicating the status of the garage door.
A log is also created to indicate when the door was operated and by what means.
Visit www.GenieCompany.com/AladdinConnect for more information.
