

VEVOR®

VEHICLE EXHAUST AIR JACK

- 4 TON (8800 LBS)
- 1000 DENIER NYLON

Vehicle Exhaust Air Jack

Never get stuck in the mud, snow, or sand again! This massive exhaust air jack is the perfect recovery tool for when you are stuck in those tricky situations that requires reliable lifting/raising your vehicle on soft, uneven ground, or even just your usual hard surface like pavement. It is perfect for jeeps, trucks, SUVs, or nearly any other vehicle. Don't let mud, snow, or sand ruin a great off-road adventure.

- 4 Tons Large Lifting Capacity
- Sturdy Material w/ High Tenacity
- Long Hose for Easy Operation
- Bonus Advantageous Accessories
- Powerful Exhaust Air Jack

Why Choose VEVOR?

- Premium Tough Quality
- Incredibly Low Prices
- Fast & Secure Delivery
- 30-Day Free Returns
- 24/7 Attentive Service

High Lifting Capacity

With strong lifting capacity, our inflatable car jack can quickly lift nearly any vehicles weighing up to 4 tons (8800 lbs), and the effective height can reach up to 31.5-inch (800 mm).

Premium Material

The air jack bag is built with ultra-durable 1000D Nylon for added durability, featuring the glass-reinforced Polyamide inlet connection, and non-slip tapered pads on the base to prevent slippage.

Convenient to Operate

Simply place the empty airbag below your car, where you would like it to be lifted, connect the hose to your vehicle's exhaust pipe, then just start your car and watch it get raised in only a few seconds.

Extra-Long Exhaust Hose

It comes with a 6-meter (20-foot) exhaust hose, made of EPDM lay flat rubber, for convenient connection to any part of the vehicle. The 4-inch diameter connector cone can collect the exhaust to a large extent.

Portable & Practical

An easy-to-carry carrying bag is included in the inflation kit, and the entire kit can be easily stored. It also contains two protective blankets to prevent the jack from being punctured by sharp objects.

Wide Application

Easily lift any vehicle weighing up to 4 tons, including trucks, jeeps, cars, SUVs, etc. It will easily solve your problems when driving on the beach, snow, mud, and other slightly sloping ground.
