### Limited Lifetime Warranty

Home Decorators Collection (warrantor) warrants to the original consumer purchaser, that all products manufactured or supplied by warrantor will be free from defects in material and workmanship. This warranty is for your lifetime as long as you own the cabinetry, on product used for Residential Purposes only and is not transferable to subsequent owners. Proof of Purchase is required.

This warranty does not cover damage resulting from normal wear, accident, misuse or lack of reasonable and necessary maintenance and service; nor does it warranty the improper installation or unauthorized repair, alteration, or modification or defects in the product when the product is installed. This warranty is limited to the repair or replacement of the defective part at the sole discretion of warrantor. Warranty is limited to Home Decorators Collection branded products excluding all electrical components: Excluded items may carry separate warranties as provided directly by the manufacturer of these products.

It is our option to provide repair parts or replace with functionally equivalent product. Return of product may be required for replacements. Such repair parts or replacement shall be at warrantor's expense, but customer shall bear all other expenses, including, but not limited to, cost of removal, transportation, re-installation, communication and any special service required by customer such as, overtime labor, etc.

Natural woods vary in color and grain pattern and exhibit color change over time. Cabinets may darken or lighten with age due to exposure to certain environmental conditions including but not limited to sunlight, moisture, household cleaners, smoke, etc. These variations are considered the natural characteristics of the material and are not covered under this warranty.

In the event of a warranted product performance issue, submit request including proof of purchase documentation, specific description of warranty issue (include photos where possible) in writing to:

Warranty Department  
210 Century Boulevard  
Bartow, FL 33830

EXCEPT TO THE EXTENT PROVIDED BY APPLICABLE LAW, ALL IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO THE SHORTER OF THE PERIOD PROVIDED BY LAW OR THE PERIOD OF THIS WARRANTY, AND UNDER NO CIRCUMSTANCE SHALL HOME DECORATORS COLLECTION BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES SUSTAINED IN CONNECTION WITH THE PRODUCT. THE EXPRESS WARRANTY ABOVE CONSTITUTES THE ENTIRE WARRANTY AND IS IN LIEU OF ALL OTHERS EXPRESSED OR IMPLIED.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitation on how long an implied warranty lasts, therefore, the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state.

#### INDEMNITY

Home Decorators Collection shall not be liable for either its failure to perform or its delays in performance hereunder arising out of or resulting from causes beyond its control, including but not limited to, acts of God, acts of Representation, acts of Government, wars, fires, floods, epidemics, quarantine, strike, freight embargoes, weather or default by suppliers due to any such causes.

FULL Overlay cabinetry is constructed from various pieces of solid wood and wood veneers. Differences in grain pattern and color should be expected. Color differences in wood are the result of variations in minerals found in the soil native to the tree's origin. Absorption of these minerals will vary by tree or parts of said tree. In addition, color changes can be experienced due to different exposure to light. All species of wood will display characteristics such as knots, pinholes, sap runs, mineral streaks and darkening with age. It is the natural beauty of wood to exhibit these characteristics and they will be present throughout your cabinetry.

Our **Toffee Glaze** finish features hand applied glaze applied over the base stain which accentuates the door and drawer front profiles. This glazing, combined with occasional fly specks, dents, drips and runs is random and intentional in design to mimic the look of distressed furniture.

The **Arctic White**, **Bronze Glaze**, **Pacific White** and **Pearl Gray** finished product features solid wood painted face frames. As with any painted wood surface, expansion and contraction with changes in climate may cause fractures in the paint surface at joints. This is an acceptable characteristic and will vary based on climate conditions. In addition, there may be a slight color shift over time due to continued exposure to both natural and artificial light.

## FACTORY FINISHED ENDS

Standard Ends Cabinets are manufactured with an unfinished wood veneer exterior. Exposed sides (visible once installation is complete) require a matching end. We have two choices listed:

**1. Factory Finished Ends** are available for all standard base, wall, and tall cabinets up to 90" tall. Specify Left Side, Right Side, or Both. Factory Finished Ends are 1/8" skins and are a color matched stained veneer or color matched painted veneer over an MDF core.

**2. Matching End Panels** are a 3/4" thick decorative end panel which looks like the selected door style and are available for standard depth base cabinets as an MBEP and standard depth/height wall cabinets as MWEP30, MWEP36, MWEP42 these options can be found on page 51. Matching base end panels and matching wall end panels cannot be used in conjunction with factory installed skins, and must be ordered separately for field installation.

Below is a quick reference chart for the most commonly designed places which can accommodate either a factory finished end or a matching end panel. Please note, these do not encompass every possible scenario, and should be used for quick reference suggestions only. When working with cabinetry around appliances, be sure to always reference your appliance manufactures specifications and requirements when making your final determination.

# Wall Cabinets Designer Tips

## Staggering Upper Cabinets

When using the 27" Deep corner cabinets, make sure to place a 3/4" filler next to adjacent cabinet if the adjacent cabinet is shallower. Also make sure to remember the finished skin for the deeper cabinet.

## Using the Wall Cabinet with accessories

Make sure to allow proper clearance on each side so doors can open 90 degrees or more. This will allow the interior accessory to pull down correctly.

## Placing a refrigerator next to a return wall

Make sure to leave enough space between refrigerator and wall so doors will open on refrigerator at least 90 degrees

## Placing wall cabinets next to a return wall

When placing cabinets against a side wall, use a minimum of 3/4" filler between wall and cabinet to allow doors to open

### Using ND Base Cabinets

Customize the depth of B24ND down to 12" you can use it on the end of a cabinet run for an interesting transition in the kitchen. This option is shown with a MWEP30 on the exposed side of the ND cabinet to mimic a finished door.

### Using ND Base Cabinets

Use only one adjustable shelf in a B24ND or wider in your laundry room to allow space to store laundry baskets.

## Designing Around a Range

Make sure to give landing space on each side of a cooking appliance when placing in design.

## Clearance for Roll Out Trays

Be sure to leave enough clearance for doors to open at least 90 degrees. This will allow the roll out trays to be operated correctly.

## Blind Cabinets with Drawers

When placing a blind base cabinet, cabinet with drawer or trash pull out, make sure to allow enough clearance so drawer/pull out will open fully.

Make sure to leave enough space to allow drawer to open if placing around corner from range or appliance.

## Using a Sink Front Angle

For sufficient dishwasher door clearance and loading/unloading space, a 15" wide base cabinet is recommended for use between a corner sink base and dishwasher.

## Base Filler Pull outs

If placing next to a wall - Must use BEP2435 between wall and pull out.

Also side of adjacent cabinet should not be finished with a finished skin.

# Tall Cabinets Design Tips

## Decorative Ends for Tall Cabinets

For decorative ends on a tall 24" deep cabinet use a CFOU and a tall skin.

## Clearance for Roll Out Trays

Make sure to leave enough clearance on for door to open at least 90degrees when placing next to wall or refrigerator cabinet.

## Customizing the Depth of a Tall Cabinet

Customize the depth of a 24" wide utility cabinet (U242484, U242490, or U242496) down to 12" and use it facing out next to a refrigerator or another utility cabinet for shallow food storage, storing brooms/mops, or create a hidden message center.

## Customizing the Depth of a Tall Cabinet

A narrow alcove in your kitchen or a pantry like storage area can be transformed into an entire wall of open and closed storage by using a combination of ND and Standard Utility cabinets with a reduced depth.

## Customizing the Depth of a Tall Cabinet

Customize the depth of a 24" wide Utility cabinet with no doors (U242484ND, U242490ND, or U242496ND) down to 12" and use it facing out next to a refrigerator or another utility cabinet for open storage and an interesting transition in the kitchen.
