### **BEFORE GETTING STARTED: PRECAUTIONS**

1. Please wear safety gear appropriate to tools being used. Eye protection should be used at all times. Failure to use protective eye gear can result in serious injury. **ALWAYS wear proper safety gear when operating power tools.**
2. Always insure you have ample space to operate power tools with complete control of the power tool.
3. Note: The Soft Close Mechanisms come installed on the tracks.

### **INSTALLING THE KEEPER**

1. Follow all instructions for installation of your Barn Door
2. Move doors to desired center, leaving a 1/32" gap.
3. Place the Soft Close Keeper on top of the RH door as shown in figure and mark through the door keeper slots.
4. Remove door and drill 1/16" pilot holes where marked.
5. Mount Soft Close Keeper.
6. Repeat for LH door
7. Re-install doors.
