

# POWER SPIN+™ Drain Cleaner FAQ

## **Will this tool work on various types of drains such as spouts, toilets, and tub drains?**

Yes, The Power Spin+ is designed to work with smaller drains such as sinks, showers, and tub drains between ¾" to 2" in diameter. The Power-Spin+ is not designed for toilets.

## **Can this tool be used on toilet-to-drain lines or main lines to septic tank, basement, and garage drains?**

The Power Spin+ is not designed for pipe diameters larger than 2 inches in diameter. We recommend the RIDGID K-400 Drum Machine for this application.

## **Can you explain the kink-resistance feature on this tool?**

The Power Spin+ includes a kink-resistant inner core cable, designed to clear common household blockages. The inner core provides rigidity and durability to the cable.

## **How can the Power Spin+ be attached to a drill for use?**

Remove the crank from the back of the drum by pressing the tabs on either side. Securely attach the chuck of the drill to the drum shaft.

## **Can it be used with both corded and cordless drills?**

The Power Spin+ is designed to be used with cordless drills only.

## **Are the tips or cutting heads on this tool interchangeable?**

The Power Spin+ does not have interchangeable tips, but a replacement RIDGID 25' cable can be purchased.

## **Does this tool automatically feed into the drain?**

Yes, the Power Spin+ uses AUTOFEED® technology to automatically feed (and retrieve) the cable.

## **Does the cable extend its full-length or is there length loss when attached?**

The kink-resistant cable will extend to the full 25 feet.

## **Can it be used for professional plumbing work?**

Yes, the Power Spin+ is recommended for DIY and light professional tasks.

## **Is this tool covered by a warranty?**

Yes, the Power Spin+ is covered by the RIDGID Full Lifetime Warranty. RIDGID tools are warranted to be free of defects in workmanship and material. See manufacture warranty for details.
