DIY Barn Door Assembly Instructions

Elegant Design Meets High Function

CAREFULLY READ ALL INSTRUCTIONS BEFORE STARTING

TOOLS NEEDED

Phillips Head Screwdriver

CAUTION: Assembled door is heavy and should be lifted by 2 people at all times. Mishandling of heavy objects (i.e., doors) may cause injury. Safety shoes should be worn at all times to prevent injury.

1. Lay all pieces out according to parts diagram on right. The Left and Right outside planks should have holes for hardware installation positioned at top of door (Figure 1).
2. Align hardware installation holes on top plank and left/middle/right planks, then install all screws in top plank in predrilled screw holes (Figure 2).
3. Repeat for bottom plank (Figure 3). Ensure notch is positioned as shown.
4. Install all screws in diagonal Cross plank in predrilled screw holes (Figure 4).
5. You are ready for your barn door installation. Follow hardware installation instructions included.
