

Quick Change Reach & Clean Tool™

Easily Clean Hard-to-Reach Glass!

Uses

The Invisible Glass® Quick Change Reach & Clean™ Tool extends your reach for easy, streak-free cleaning of hard-to-reach glass. It is great for sloped windshields, rear windows, dashboards, and household glass and mirrors. A threaded hang loop on the handle unscrews so you can attach any standard-thread pole for extra-long reach on RVs, trucks, boats, and tall windows at home or office.

Directions for Use

1. Attach the Flex-Tech™ Cleaning Head to the InstaSnap™ Pivot Arm by inserting the right-side pin into the right-side receiver (closed), and then snap the left-side pin into the left-side receiver (open).
2. Attach a Quick Change Microfiber to the Flex-Tech™ Cleaning Head by centering it curled side up and pressing it down onto the foam base. Then gently push the curled seams around the edge of the cleaning head.
3. Spray Invisible Glass® onto the attached microfiber. Spray just enough to saturate the outer layer of the microfiber. NOTE: over-saturation can lead to streaking. Leaving some dry areas between the wet application areas will allow the microfiber to dry and polish more effectively.
4. Clean the glass using a side-to-side, horizontal motion across the entire upper half of the windshield (one or two times). Use an up & down, vertical motion for the lower half.
5. To maintain streak-free cleaning, frequently turn the microfiber over to expose a clean side. While cleaning, keep the handle within a 30° angle to the glass for ease of movement. Always dry the glass completely to eliminate potential streaks.

Pro Note: Wash the waffle weave microfibers WITHOUT fabric softener and allow to air dry completely before storage.

Packaging

Kit contains 1 Flex-Tech™ Cleaning Head, 2 large Quick Change Microfibers, InstaSnap™ Pivot Arm, Foam Grip Handle (with hang loop cap), & Storage Bag.

Quick Change Description

Maximizes reach for easy, streak-free cleaning

Innovative tool gives you access to hard-to-reach glass for fast, easy cleaning and polishing.

Easily Cleans Hard-to-Reach Glass

The Invisible Glass® Quick Change Reach & Clean™ Tool allows you to reach into tight spaces such as corners, angles, and deep narrow gaps to quickly and easily clean sloped windshields, rear windows, dashboards, and household glass and mirrors. It's unique Flex-Tech™ cleaning head flexes to keep full contact on curves, preventing gaps and voids where glass is uncleared.

Quickly Reverse or Replace Microfibers

New Quick Change microfibers attach in just seconds to save you the time and frustration of stretching and fitting bonnets. The Invisible Glass® Quick Change Microfibers have a waffle weave texture that is more absorbent than standard microfibers. Use the included mesh bag for storage and washing of microfibers.
