

Achieve Flawless Pipes Crimping and Connections!

VEVOR PEX crimping tool exhibits excellent crimping capabilities, allowing for rapid completion of pex crimping and copper ring removal. 3 jaw dies: 3/8", 1/2", 3/4", caters to various copper ring crimping needs. Also comes with Go/No-Go gauge, PEX tubing cutter, and copper ring removal tool.

Our 3 crimping dies are specifically designed to meet various crimping requirements for different copper crimp rings. With sizes ranging from 3/8", 1/2", to 3/4", these dies provide versatility and flexibility to achieve precise crimping results.

Durable PEX pipe cutter is an essential tool in PEX installations, providing clean cuts for PEX pipes up to a maximum diameter of 1.3 inches. It features efficient cutting performance, ensuring precise and clean pipe cuts for accurate and neat installations.

GO/NO-GO GAUGE

Check the security of crimping and connection

Measure each crimp ring to ensure proper crimping and guarantee tool accuracy for every connection

With a GO/NO-GO gauge, successful crimps when the ring slides into groove and stops within the "GO" range. If it fails to pass through the "GO" gauge, crimping is unsuccessful. If the ring crosses the "NO-GO" line, the crimping fails inspection.

WIDE APPLICATIONS, CONVENIENT OPERATION

VEVOR crimping tools are easy to operate and offer durability and usability, making them an ideal choice for plumbing and irrigation projects. The simple operation ensures quick and effortless crimping, while their durability ensures reliable performance over the long term.
