VEVOR is a home improvement brand empowering Home Creators to upgrade spaces with pro-level products at exceptional value.

We deliver superior performance through practical tech innovation that blends purposeful technology with the hands-on joy of creation.

We break down price barriers so every upgrade reflects your vision to life.

Upgrading every space isn't just a task—it's a declaration of reinvention.

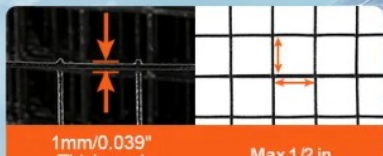

Upgrade with VEVOR!

Make your solar panels safe and secure!

VEVOR

SOLAR PANEL CRITTER GUARD ROLL KIT

Effectively keeps critters away

1mm/0.039" Thickened Galvanized Wire

Max 1/2 in Grid Structure

Sturdy

Flexible

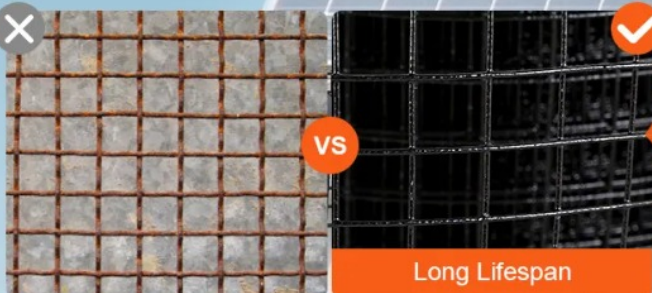

Durable

This solar panel bird guard is constructed with galvanized steel wire welded into a grid and covered with PVC coating, ensuring robust durability, stability, and rust resistance. It serves as a protective barrier to prevent birds and other small animals. Suitable for various protective needs.

HARD PVC DIP COATING FOR EXTRA TOUGHNESS

UV, Cold, and Aging Resistance

Internal galvanized steel

Long Lifespan

The critter guard roll kit utilizes galvanized wire with a thickened $\phi 0.7\text{mm}$ with a hard PVC dip coating. This coating provides higher hardness, enhancing resistance to bending and durability. It offers both hardness and flexibility!

CUT BEFORE COATING WITH FULL EDGE

Resistant to Peeling and Rust

After

Rust-proof Fully Encapsulated Edges

Upgrade Before

Exposed Metal Edges, Prone to Peeling and Rust

After

Pre-Stamped and Electrophoresis Coated with Fully Sealed Edges

Upgrade Before

Exposed Metal Edges Prone to Peeling

The solar panel bird wire features an upgraded coating with hard PVC, which is pre-cut and molded to ensure it doesn't detach easily, thereby improving lifespan.

EASY INSTALLATION

Easily Cut and Bent

Cut to the appropriate size

Bend at a 45° angle or leave a gap

Thread the fastener wire through the mesh

Add washers to the fastener wire

Slide forward to tighten and lock the fastener

This solar panel guard kit comes with an instruction manual for easy assembly. Done in just a few minutes with straightforward installation steps without complex tools or professional skills. Additionally, it can be used in various places, including vegetable gardens and rooftops.

EFFICIENT CRITTER GUARD OR DETERRENT

Suitable for Ground and Roof Installation

Versatile Use

Poultry Farming

Cat Deterrent

Rabbit Fence

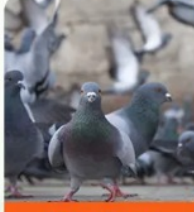

Rodent Barrier

Plantation Enclosure

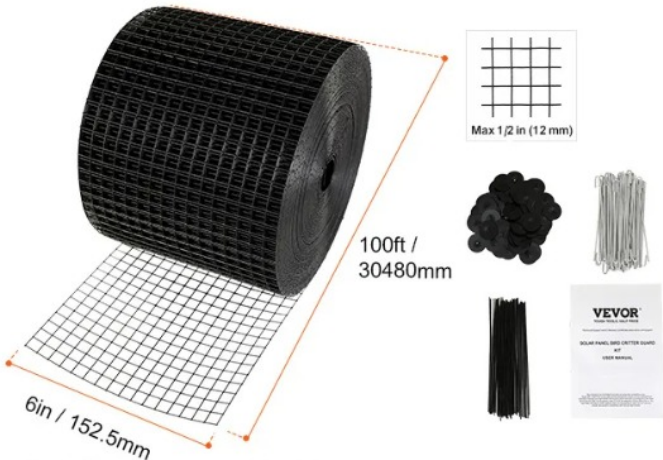

Land Partition

Aviary Fence

This solar panel guard protects solar panels from birds and other small animals and can be used in various locations, including pipe openings, chimneys, garden fence bottoms, and vegetable gardens.

Post-Coating Diameter: **$\phi 1\text{ mm}$ / 0.039"**

Mesh Size: **Max 1/2 in (12 mm)**

Net Weight: **3.11 kg / 6.86 lbs**

Main Material: **Cold Galvanized Drawn Wire + PVC**

Product Size(L × W × H): **30480 × 152.5 × 1 mm / 100 × 0.5 × 0.003 ft**

6 Inch x 100ft Solar Panel Bird Guard Ensures Easy Installation

It is so easy to install the VEVOR solar panel bird guard. It comes with all necessary parts and pieces. You may need tin snips to properly cut the birdnetting to size. This makes the installation process quick and hassle-free. Even if you don't have any handy tools, you can install it yourself without professional help. The VEVOR solar panel's bird guard offers an excellent solution to keep pigeons away from your roof. A strong and reliable barrier keeps your solar panel clean and free of bird nests.

Rust-proof PVC Coating Offers Enhanced Durability

This very durable and weatherproof PVC coating for the VEVOR bird guard ensures long-lasting protection with its rust-proof PVP. This coating ensures that the product lasts for many years. The durable PV dip coating helps protect against weather elements. It prevents rusting, making the guard sturdy and durable. That feature is especially useful in areas with harsh weather conditions. With this coating, the birdguard stays effective and reliable for years to come. However, it also makes cleaning and maintenance easier.

Critter Guard Roll Kit Provides Effective Critter Deterrence

It is a useful critter guard kit designed to keep unwanted animals away. It effectively deters pigeons, squirrels, and other rodents from getting into your solar panels. The strong and durable mesh prevents them from entering the solar panels. This guard is strong enough to withstand the attempts of these animals to get inside. That keeps your roof and solar panels safe and clean. Furthermore, it ensures that your solar panels work efficiently without any interference from critters. Our guard stands as an excellent solution for keeping your rooftop space free from animal intrusion.

Stainless Steel Fasteners Ensure Secure Attachment

The VEVOR solar panel bird guard includes stainless steel fasteners. These fasteners offer a secure and reliable attachment. They are rust-resistant, ensuring long-lasting use. The fasteners are easy to install, making the setup process quick and straightforward. This secure attachment ensures that the bird guard stays in place, even in windy conditions. This feature also gives you peace of mind by protecting your solar panels. The stainless steel fasteners enhance the overall effectiveness of the guard.

1/2-Inch Wire Roll Mesh Provides Sturdy Protection

It is made of cold galvanized drawn wire, ensuring durability. The mesh is stiff enough to keep its shape in place. This feature prevents animals from bending or breaking through it. Easy to handle and install, the wire mesh provides a reliable barrier to hold birds and rodents away. Its durable protection ensures that your solar panels stay clean and efficient as well. This mesh should be an essential part of the birdguard, making it more effective than ever.

Ideal for keeping pigeons and rodents away from solar panels.

This bird guard is perfect for keeping pigeons away. It also prevents rodents from chewing through your solar panels. The guard creates a physical barrier, preventing unwanted animals from nesting and damaging your solar panels. Because of this, the effectiveness of the guard ensures that your panels operate efficiently. Furthermore, it does not require frequent cleaning and maintenance. This birdguard is an ideal solution for protecting your investment in solar energy. You get a dependable and long-lasting barrier against pigeons and rodents.

User-friendly Design Reduces Maintenance Effort

This is a practical solution for homeowners and businesses alike. The VEVOR bird guard has fewer maintenance needs. It's easy to set up and maintain, making it easier to install and keep the system running. No frequent adjustments or repairs are required. Once installed, it keeps your solar panels clean and free from bird nesting. It reduces the need for costly repairs and maintenance. User-friendly design ensures that even non-professionals can install the guard without any trouble. This feature makes it able to solve many tasks with ease. Our bird guard offers an effective and low-maintenance solution for protecting your roof and solar panel.
