Smart Padlock

Protect what you love.

The igloohome Smart Padlock strikes the perfect balance between security and convenience. Built with versatility in mind, it is the most flexible padlock that allows for time-sensitive access.

Tailor-made for everyday use

Use the Padlock for gym lockers, delivery boxes or to secure yard gates. Its versatility offers endless possibilities. The shackle is interchangeable to allow for a more customised fit on different gates, doors, garages and more.

A protective silicone case is available for added protection against the elements too.

Accessories sold separately.

Safeguard your assets, always

The Padlock is a tough nut to crack. Built with heavy-duty and rust-resistant materials, the Padlock can withstand >15kN cutting force and >25kN pulling force to keep your property and assets safe.

Convenience made smart

Let guests in any time of the day, even when you're miles away! The igloohome mobile app lets you manage access in the palm of your hands.

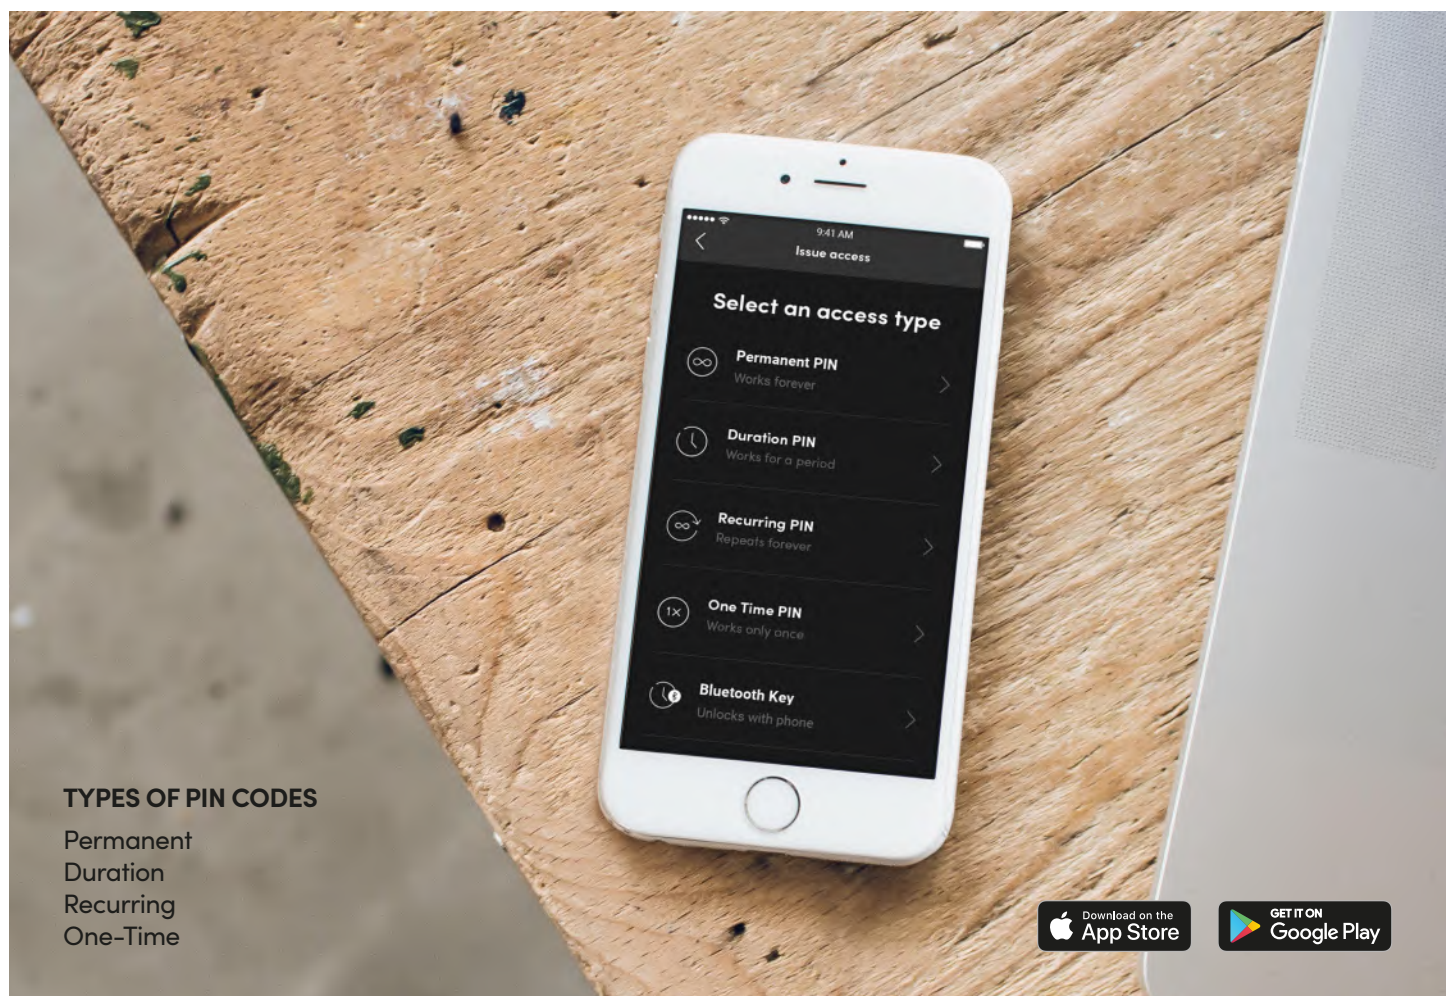

Issue time-sensitive PIN codes with our innovative algoPIN™ technology:

There's no need for users to download an app to receive them, or for you to be near the Keybox to grant access. Or simply send Bluetooth keys to track activity logs in real-time.*

**Note: PIN code activity logs are updated when the lock is synced in Bluetooth range with the app.*

Syncs with Airbnb

Easily connect your Airbnb account via the igloohome app to automatically create and send PIN codes for each guest according to your listings.

Ultimate balance between security and convenience.

Auto relock

The Padlock auto relocks once the shackle is closed.

Masking security code

Conceal your actual PIN code by entering random digits before it.

Keypad security lockout

Keypad is disabled after several incorrect PIN code attempts.

Relock reminder alert

The reminder alert prompts you to fasten the shackle.

The small details matter.

Secured battery cover

Deter unwanted tampering with Torx Security design.

Hardened shackle

Made with hardened stainless steel and anti-corrosion materials.

Low battery alert

Prompts you intuitively to replace the batteries before they run out.

Emergency jumpstart

Jumpstart with a 9V battery if batteries are drained.

Flexibility for enhanced user experience.

Convertible shackle configuration

Retained or removable shackle configurations for versatility.

Protective silicone case

Added protection from weather elements, scratches and dust.

Interchangeable shackle

Shackle is interchangeable to cater to your needs.

Volume control

Adjust the volume to suit your preferences.
