INSTALLATION INSTRUCTIONS

- 1) Determine where you wish to mount your rack. Make sure you locate your wall studs if you want to mount into solid wood. You will want to use a level (not included) to make sure that the rack is level. You may not be able to mount both ends to a wall stud as they are typically spaced at 16". If it is not convenient to hang your rack directly into a wall stud you may use the included DRYWALL anchors enclosed with your rack. See Toggler® brand manufacturer recommendations for weight limits included in the instructions in the Toggler kit.
- 2) Hold the bar against the wall in its desired location, mark the mounting holes. If installing into solid wood, you may want to pre-drill holes. Install the 1 1/2" wood screws directly into the wall studs through the holes on the wall rack (or use the toggle instructions for drywall mount).

It is important that your rack is installed correctly. If the unit is installed or used incorrectly, it could become unstable and collapse, possibly causing injury.

Warranty. This product is warranted to be free of material defects for a period of five years from the date of purchase. Your exclusive remedy for breach of this warranty shall be the repair or replacement of the defective product when delivered, postage prepaid, to Enclume Design Products at 24 Colwell St. Port Hadlock, WA. 98339. There is no other warranty, expressed or implied, and there is specifically NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. In no event will Enclume Design Products be responsible for any incidental or consequential damages related to use of this rack.
