In order to ease the assembly, you should separate and identify the parts first.

Necessary hardware for the assembly

Do not place the parts directly onto the floor. Use a cardboard sheet or a mat to place the parts, during the separation and assembly.

* Only in cabinets without caster * Only in cabinets with caster
STEP 1
1 - Fit part P7 inside part P3
2 - Fit both parts in the frontal side, with F1

STEP 2
1 - Fit part P2 inside part P7
2 - Fit both parts in the frontal side, with F1
**STEP 3**

1 - Fit part **P5** between part **P2** and **P3**
2 - Check that all 4 tabs have been fitted
3 - Fit part **P5** to parts **P2** and **P3**, at the frontal side, with **F1**

**STEP 4**

1 - Turn the cabinet with the back side upwards
2 - Fit parts **P2** and **P3** to parts **P5** and **P7** with **F1**
**STEP 5**

1 - Fit part P10 into parts P2, P3 and P5
   Check that all fits are supported over the bolts
2 - After fitting the parts, screw the bolts until locked

**WARNING**

Position part P10 on the P5 side for mounting the cabinet.

---

**STEP 6**

1 - Fit part P9 into parts P2, P3 and P7
   Check that all fits are supported over the bolts
2 - After fitting the parts, screw the bolts until locked
**STEP 7**

1 - To assemble the cabinet with shoe, fit the accessory F9 in part P7 as illustrated here below and turn to screw. To level the height or the cabinet, turn the shoe either clockwise or counterclockwise to align it.

2 - To assemble the cabinet with caster, align the F10 and F11 to the holes in part P7 and fix them with F3.

3 - WARNING: Casters with lock (F11) must be fitted in the frontal side of the cabinet.

* Only in cabinets without caster  
* Only in cabinets with caster

**STEP 8**

1- Turn the cupboard so that it will stand in the position of use

2- Fix F7 to parts P2 and P3, as shown here below
STEP 9
1 - Fit the lower part P19 in diagonal position to insert it inside the cupboard
2 - Lean part P19 in part P2, P3 and place it over the F7 detailed in the figure here below
3 - Lower the other side of part P19, leaning it over the left F7

STEP 10
1 - Insert part P17 inside the cabinet, in diagonal position.
Fit part P17 in cut-offs of parts P2 and P3, as detailed here below
3 - Fix part P17 in parts P2 and P3, with F1
STEP 11
1 - To assembly the doors, fit door P26 lower hinge bolt inside the bushing fixed in part P7
2 - Then, pull down the pin of door P26 upper hinge; align the door and release the pin to fit the bushing fixed in part P17
3 - Repeat the step for part P27

STEP 12
1 - Fit part P15 to part P28
2 - Fit them with F1
**STEP 13**

1. Align parts P12 and P13 to part P15, until it leans against part P28.
2. Fit them with F1.

**STEP 14**

1. Insert part P14 over part P15 and between parts P12 and P13.
2. Then, fix part P14 to parts P12, P13 and P15, with F1.
STEP 14
1 - Fit the drawers – already assembled – between parts P2 and P3, through the slidings
2 - Check that slidings of both sides are properly fitted. Move the drawer, opening and closing it, testing

STEP 15
1 - Insert product log
