### COOKING STYLES:

#### Use charcoal briquettes

1. Open the air-vent fully.
2. Simply stack the charcoal briquettes inside of the grill and add lighter fluid.
3. Immediately light the charcoal briquettes in several places by using a long match or stick lighter and keep the grill uncovered.
4. The flames will die out in 5-10 minutes, wait until the charcoal briquettes completely ash over, then with a cooking tool spread the briquettes evenly and begin cooking.

### IMPORTANT SAFETY TIPS:

Failure to obey these safety rules may result in bodily injury and household appliance property damage or DEATH

#### DANGER!

DO NOT use diatomite grill for indoor cooking or heating in home, vehicle and tents.  
TOXIC carbon monoxide fumes can accumulate and cause asphyxiation.  
LIVE hot briquettes can create a fire hazard.

#### WARNING!

- DO NOT use gasoline, kerosene, or alcohol for lighting charcoal briquettes.
- ALWAYS handle a hot grill carefully as the heat and steam within the grill can severely burn you.
- ALWAYS place the grill on a hard, level surface far away from combustibles and children.
- This is NOT a tabletop grill!! Therefore, DO NOT place this grill on any type of tabletop surface.
- DO NOT attempt to move the grill once the charcoal briquettes have been lit.
- DO NOT leave a lit grill unattended, especially around children and pets.
- DO NOT touch metal parts of grill until it has completely cooled to avoid burns, unless you are wearing protective gear (potholders, cotton gloves, BBQ mittens, hot pads etc.)
- DO NOT remove the ashes until all briquettes are completely and fully extinguished.
- KEEP all electrical cords away from a hot grill.
- DO NOT use grill in high winds.
- DO NOT use the grill unless it is completely assembled and make sure all parts are securely fastened and tightened.

WARNING: Fuels used in wood or charcoal burning appliances, and the products of combustion of such fuels, contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

Here are a few helpful hints for the safe and effective operation of your new grill.

- Allow 25-30 minutes for the briquettes to light before cooking. The briquettes should have a light coating of ash on top of them when ready.
- When using lighter fluid allow ample time for liquid to soak into briquettes before lighting and light briquettes in several places to ensure maximum ignition.
- Store your briquettes in a dry place. If storing outside, seal in a waterproof container.
- A diatomite grill is fragile. Be careful of the grill when attempting to store or move it.
- When cleaning your grill, DO NOT use abrasive cleaners as they may damage the parts of this product. Clean all grates and pans with mild detergent. Rinse clean with water. Remove all ash and dispose properly.
- Be careful of sharp edges before cooking.
