Read below for pro tips on how to care for your beautiful indoor/outdoor area rug

Broom Clean

As needed, sweep off any dust, debris, or leaves that may have fallen onto your indoor/outdoor area rug. The low pile allows for a quick and easy clean up!

Spot Clean

When stains or spills occur, blot the area immediately with a clean damp cloth. Use carpet cleaner as needed to treat the stain. Dab the spot with a clean dry cloth until moisture is removed. Allow to air dry thoroughly before walking on the area.

Hose Clean

For a deeper clean, use your garden hose to rinse off your area rug. Please allow rug to dry completely before use or rolling up for storage.

Vacuum Regularly

Refresh your area rug by vacuuming regularly. Vacuuming often will help to eliminate dust, debris, and remove any shedding that may occur. Use beater bar on low to medium pile rugs only. Pro Tip: Do not use the vacuum's beater bar setting when vacuuming high-pile, shag, or natural fiber area rugs.
