

## Sands

### PLAY SAND

- Used for sand boxes, landscaping, masonry, and cat litter
- 100% natural, not manufactured
- Screened and washed

### MULTI-PURPOSE SAND

- Use for landscaping, custom cement mixes and traction
- Screened and graded coarse sand

### PAVER SET® POLYMERIC SAND

- Long-lasting solution to weed growth & wash-out in pavers joints
- Hardens to fill joints between pavers
- Polymer-fortified to adhere sand in place

### TUBE SAND

- Re-sealable, durable bag for bad weather conditions and indoor/outdoor storage
- Additional ballast in the back of a car or pick-up truck
- Use to aid in flood control
- Weight for holding down goals, backboards, etc.

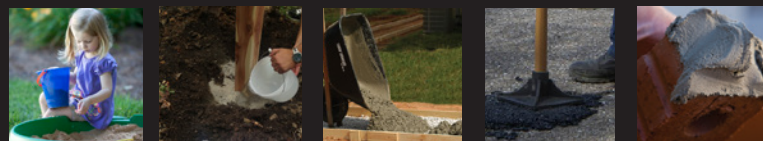

# Product Guide

All solid projects start with Sakrete®, the original bagged concrete brand since 1936. Sakrete is dedicated to consistently providing pros and DIYer's with high-quality products, availability, and superior customer service and technical support, giving them confidence that their projects will be done right the first time. Sakrete is the Pro's Choice for concrete mixes, masonry products and repair products. **Sakrete, Rip Open a Bag of Confidence.**

SAK16-261

## Concrete and Cement Mixes

### HIGH STRENGTH CONCRETE MIX

- Used for walks, footings, slabs and steps, anchoring posts and poles
- For applications requiring at least 2" in thickness
- Use with Sakrete Cement Colors, Cement Mix Accelerator, Cure 'N Seal
- Available 60 lb and 80 lb bags

### MAXIMIZER

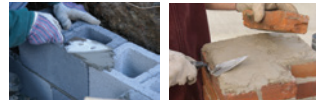

- 67% more by volume than normal weight concrete
- 5500 psi
- Easy to mix
- Use for walks, footings, slabs, steps, and balconies

### SAND MIX - Topping & Bedding Mix

- Portland cement based concrete repair & overlay (1/2" to 2")
- Deck mud
- Setting shower pans
- A bedding mix for flagstone, slate, and brick walkways

## Mortar and Masonry

### TYPE S MASONRY MORTAR/STUCCO

- Used for load-bearing walls & construction above & below grade
- Creates smooth, buttery blend for laying brick, block, and stone
- High strength, contractor-grade mortar mix

### STONE VENEER MORTAR

- Used for setting and grouting artificial stone
- High-performance adhesion of mortar and stones to substrate
- Consistent quality from bag to bag for less waste and problems associated with on-site mixing

## Blacktop Patch and Repair

### US COLD PATCH

- Made with over 95% recycled materials
- All weather use - including cold temperatures and rain
- Sets by compaction, not evaporation
- Easy to use - "throw and go"
- Permanent repair of potholes
- DOT approved
- No odor or oily mess
- Drive on immediately after use - no tracking
- Product performs best against other cold patch products under highly restrictive California air quality regulations

### ALL WEATHER BLACKTOP PATCH

- Ready to use - workable mix
- High performance patching material with good compaction
- Use in wet or dry conditions, at any temperature
- Patch and repair of potholes in blacktop walks, drives, and parking lots

### BLACKTOP CRACK FILLER

- Ready to use - easy to use spout
- Fills cracks in blacktop up to 1/2" wide
- Fill cracks in blacktop to prevent water and weed penetration

### BLACKTOP CRACK FILLER

- Filling wide cracks and depressions in asphalt surfaces
- Heavy duty black mastic for the repair of imperfections and cracks to 1" wide
- Help stop damaging water penetration

# Cleaner and Additives

## CONCRETE MORTAR DISSOLVER

- Removes dried on cement, concrete or mortar from most surfaces
- Can safely be used on vinyl, wood, automobiles, and tools
- Safe environmentally friendly liquid alternative to aggressive acid concrete removers

## CONCRETE & ASPHALT CLEANER

- Removes or lightens grease and oil stains from blacktop and concrete surfaces
- Non-toxic cleaner - simply rinse with water

## CONCRETE BONDER & FORTIFIER

- Brush from the bottle for bonding applications to old concrete surfaces
- Use as an additive to concrete mix to increase its adhesion, impact strength, and abrasion resistance
- Dilute to use as an admixture

## CONCRETE CURE 'N SEAL

- Water resistant, acrylic coating
- Use as clear liquid finish to protect surfaces or as an additive to enhance the hardening and curing of concrete

## CEMENT MIX ACCELERATOR

- Speeds the set time of concrete and mortar
- Ideal for cold weather conditions
- Contains calcium chloride

## NON-SHRINK CONSTRUCTION GROUT

- Non-shrink, non-metallic, structural hydraulic cement
- Non-corrosive and super-plasticized for improved strength

## CRACK RESISTANT CONCRETE MIX

- Used for walks, slabs, steps and footings to reduce the risk of cracking
- Professional strength for commercial structural applications
- Fibered reinforced to reduce the risk of shrinkage cracks and eliminates the need for wire mesh or rebar

## FAST-SETTING CONCRETE MIX

- Sets poles and posts quickly and easily, without blending the material
- For applications requiring at least 2" in thickness
- Also for slabs, footings and walks
- Sets in just 1/2 hour

## 5000 PLUS CONCRETE MIX

- Used for walkways, driveways, slabs and steps
- High early strength 5000 psi for commercial structural applications
- Ideal for 1 1/2" thick concrete countertop applications

# Concrete and Masonry Repair

## FAST SETTING CEMENT PATCHER

- Used for rapid repairs of concrete steps, walks, drives, and patios
- Repairs from 1/2" to 2" thick
- Sets in 20 minutes
- Can be opened to foot traffic in 4 hours

# Concrete and Masonry Repair

## TOP 'N BOND CONCRETE PATCHER

- Used for resurfacing and patching worn or chipped concrete surfaces
- Makes old concrete surfaces look like new
- Superior bonding strength means long lasting repairs
- Available in white and gray

## CONCRETE & MORTAR REPAIR TUBE

- Available in 10.3 oz or 5 oz tubes
- Siliconized, acrylic latex for flexible, durable seals around concrete surfaces and masonry
- Helps protect against damaging freeze/thaw cycles

## FLO-COAT CONCRETE RESURFACER

- Makes old, worn concrete look like new
- Highly flowable for easy application with lightweight squeegee
- Fortified with polymers for superior bonding strength
- Ideal for worn or chipped concrete surfaces

## CONCRETE CRACK FILLER

- Fills cracks to prevent intrusion of water
- Fill and seal cracks in concrete up to 1/2" wide
- Composed of flexible and durable materials

## LEAK STOPPER HYDRAULIC CEMENT

- Instant-setting hydraulic cement
- Stops leaks underwater
- No need for forms or braces
- Available in white or gray

## POLYURETHANE CONSTRUCTION ADHESIVE

- A one component adhesive with superior bonding capability
- For bonding concrete, stone, brick, wood, roof tiles, ceramic tiles and metal
- Can be used to fill cracks in concrete

## TROWEL GRADE LEVELER & UNDERLAYMENT (B1)

- Use over concrete, cementitious backer board, exterior grade plywood, and embossed vinyl tile
- Use under asphalt tile, vinyl flooring, carpet, and wood flooring
- Fast setting with no shrinkage and can be feathered edged

## POLYURETHANE SELF-LEVELING SEALANT

- A one component sealant which forms a flexible joint with excellent adhesion
- Repair cracks or fill joints in horizontal concrete surfaces

## POLYURETHANE NON-SAG SEALANT

- A one component sealant which forms a flexible joint with excellent adhesion
- Repair cracks or fill joints in horizontal or vertical concrete surfaces
